

# The next generation charity.

## Fundraising Program

WHAT IS A.B.A.D.D.I?

It is a fundraising program.

It means, a buck a day does it.

Pronounced "a badd- e"

using the word ADD for each of the

values we promote. It is

the most advanced charity

ever created. It will change

how people support their

youth community in real time.

To solve today's most complex issues,

money and love need to align. We use

convenience, technology, goodwill,

entertainment, content creation, human

connection and transparency

to show who we help. You as the donor

get to be involved "by choice" each day.

We hope, like any other morning or evening

ritual you take the time to log on,

press the donate one dollar button,

then have access to the next short blog post or video

showing where that dollar went. It will feel like

you handed that human in need the dollar yourself.

The most satisfying part is you, along with a

number of others we all did this together in one day

to change a life for the future. We focus on the youth

of Las Vegas ages 16-24 years of age. The most challenging.
