

A close-up photograph of three chocolate ice cream cones. The cones are light brown with a diamond-patterned texture. The ice cream is a dark, rich chocolate color. The background is dark and out of focus. A large, semi-transparent red rectangle is overlaid on the center of the image, containing the text.

Ice cream

Fun fact

- Did you know that there is an ice cream sandwich? The ice cream sandwich is believed to have been invented in New York City in 1899 by a pushcart salesman. The first written mention of the ice cream sandwich was in the New York Mail and Express that year.
- The first ice cream sandwiches were sold for a penny in 1900 in the Bowery neighborhood of New York. They were made with ice cream sandwiched between milk biscuits.

How you get ice cream

Make them, buy them, and get them from an ice cream truck.

Ice cream gets scooped
in...

- **Bowls**
- **Ice cream cones**

A red speech bubble graphic with a white outline, pointing downwards. It contains the text "Where it got it's name" in white. The bubble is positioned on the left side of the slide, overlapping the background's curved lines.

Where it got it's
name

The name “ice cream” comes from the phrase “iced cream”, which was similar to “iced tea”. American Colonists were the 1st to use the term.

The background features several thin, curved lines in a light gray color, some solid and some dashed, creating a sense of motion or a stylized globe. A large red speech bubble is positioned on the left side of the slide.

ice cream is
made of...

- Iced cream, sugar, & flavoring, like vanilla.

The background of the slide features a series of thin, curved lines in a light gray color, some solid and some dashed, creating a sense of motion and depth. A large, solid red shape, resembling a speech bubble or a stylized letter 'C', is positioned on the left side of the slide. It contains the text 'When it was invented' in white, sans-serif font.

When it was invented

Ice cream-like treats have been traced back to ancient Persia as far back as 550 BC, according to various sources. The Persians ingeniously utilized ice houses and ice pools to master the craft of producing and serving delectable delights such as faloodeh and sorbets year-round.
