Product Brochure

Wall-art and Illuminated Towers

ABOUT

If you're looking to enhance your garden or outdoor area, our wall-art and illuminated tower products are designed to do just that. These products can be used against any wall in your garden area and we also have options available for indoors, too.

DESIGN AND MANUFACTURE

We have 5 standard design options available, however our team are at hand to bring your own visions to life if you require something more bespoke.

Wall-art and Illuminated Towers are manufactured using a mild steel, which can then be powder coated in a choice of your choice. All production takes place at our 23,000 sq.ft. production facility in Castle Donington, Derby, UK.

ADDITIONAL EXTRAS

Wall Art can be back-lit with IP65 outdoor or standard indoor RGB LED strips which allow you to choose the lighting effect for the setting or mood you want.

Fire Pits & Planters

ABOUT

Fire Pits

With our bespoke Fire Pits, those chilly evenings won't be a problem anymore! These are great for creating a warm and cosy atmosphere outside and proves a contemporary addition to any alfresco area.

Our fabrication division enables us to offer a bespoke service. We are able to tailor the design of the firepits to your exact requirements, so get in contact today to see what we're able to do for you.

Planters

Powder coated steel planters can create a real focal point for your outdoor areas. Our planters offer limitless scope for colour customisations, combined with a durable, hard-wearing and flawless surface finish.

We have a few standard designs available, but can also offer a complete tailored and bespoke service if required through from first point of contact, design, manufacture and delivery. Call us today to discuss your requirements.

Pallet Furniture

ABOUT

Usually used in shipping, wooden pallets can be turned into sleek, unique designs to use throughout your home and garden to create an impact and give them a more unique and personalised touch.

From pallet sofas to planters, the possibilities are endless and we have a whole range of designs available to purchase.

USAGE

DOMESTIC

Utilise our pallet furniture throughout your home to create an impact and create a more unique and personalised touch.

GARDEN

Pallet furniture is a great way to incorporate a distinctive and quirky element to your garden, to showcase your plants, flowers and herb gardens.

OUTDOOR PATIO AREAS

Make the most out of your patio, garden or decking areas by using seating and tables from our pallet furniture range.

Ornamental Bridges

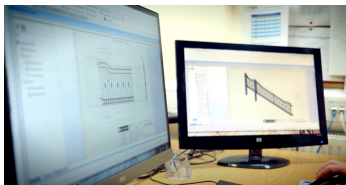

ABOUT

Garden bridges are a great way to add character to any landscape. They are able to be used solely as a decorative element, but can also prove practical if you need to expand over a creek or pond.

We have a range of standard options available, however if you would like something made more bespoke, our design team will be able to assist with any requirement.

PROCESSES

Design

We have a range of different standard options available to choose from. However, you can work with our team to specify and design your own style if required.

Manufacture

We believe that details make the difference. We use only the highest quality raw materials to manufacture our products which in turn, will stand the test of time.

Installation

Once manufactured, we offer an installation service around the Derbyshire, Leicestershire and Nottingham areas at an additional cost.

Rustic & Industrial Style Tables

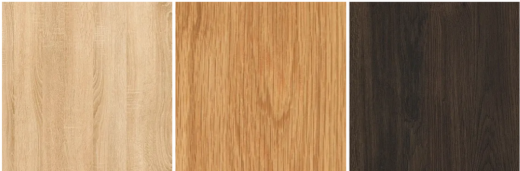

ABOUT

We have a range of different options available to suit different areas of your property. Choose from a unique range of options, inspired by chic, rustic and industrial styles. Our products are designed for both household or commercial usage.

SURFACE FINISHES

Natural Oak Finishes

Karndean™ Commercial Grade Vinyl

Railings & Gates

ABOUT

We manufacture a large range of railings and gates in all types and sizes. Whether you're in need of metal driveway gates or railings for your property, our solutions are bespoke and are made to measure.
