

Section 4 – The Serve, Service Sequence, and Scoring Rules

4.J. Calling the Score in Doubles Matches. The score is called as three numbers in doubles matches. The proper sequence for calling the score is: serving team's score – receiving team's score – the server number (one or two), (e.g., “zero – one – one”). To start each game, the score will be called as “zero – zero – two.”

4.M. Service Faults. During the service, it is a fault against the server resulting in loss of serve if:

4.M.10. The server begins the service motion before the entire score is called.
