Island Heights, NJ 08732
Dear Mark Imbimbo,

I want to thank you for introducing Service Uniform to the Eco Clamps. As you know I was very skeptical if they would save us at least ten percent on our gas consumption. The clamps were easy to install gave us a little over 10% reduction in our natural gas consumption in both of our plants. Mark was easy to work with and answered all of questions, before, during and after installation. We installed them over a year and a half ago and they are still giving us the 10% plus savings in our natural gas. I would recommend Mark and his company Flo-Gistics.

Sincerely,

Dennis Tschida
