

PROCEDURES TO BE USED IN A DIVE EMERGENCY

1. Call **Dr Bobby Wellsh** on **(+675) 72144651** to assess the situation and advise what course of action to take

As an alternative call Diving Emergency Services (DES) for a diagnosis: **Diving Emergency Services: +1 919 684 9111**
(if calling from an Australian SIM, call 1800-088-200)

2. In the event that an evacuation to a recompression facility is recommended, notify:

- MEDICAIR Switchboard **+ 675 3112673** (Daytime B/H)
Operations Manager **+675 72205819**
Charters Manager **+675 7249 1829**
- HYPERBARIC CHAMBER - Chamber Manager
+675 7202 1200 or +675 71949333 or +675 72203504
+675 73869443 (WhatsApp)

For DAN-insured, if evacuation is required MEDICAIR will contact DAN. They will require

- DAN membership details
- Description and location of the accident
- Source of medical advice/diagnosis, eg. Dr Wellsh

MEDICAIR will also require this information from the Patient/Guardian:

- Full name & date of birth
- Nationality & passport number
- Australian visa details (if necessary)
- Mobile contact numbers

For other insured, call the emergency contact for that insurer.

For self-insured, patient/guardian must arrange the evacuation directly.
