Prince Albert National Park

Enjoy the changing seasons at Prince Albert National Park!

Embrace the changing seasons and spend quality time outside at Prince Albert National Park. Visitors will appreciate the tranquility of nature as the park transitions into winter.

Come visit this special place and enjoy our recommended experiences this time of year:

- **Explore the wilderness of the park** with a hike on a trail! Check the [trail conditions](#) online before you leave.
- **Enjoy a self-guided interpretive hike** on [Mud Creek](#) and [Treebeard](#) Trails! Pick up a brochure at the trailhead and follow the numbers on the trail to learn more about its unique features.
- **Bring lawn chairs and picnic items** to a [day use area with fire pits or a kitchen shelter](#) and enjoy a campfire surrounded by beautiful scenery!
- **[Stay overnight and go stargazing!](#)** On a cloudless night, look up to see the stars sparkling across the night sky. You may even be lucky and catch the aurora borealis dancing overhead.
- **[Attend a craft workshop facilitated by local Cree artists.](#)** Spots are limited; please pre-register today! The materials, the expertise of the facilitators, Bannock and wild tea are included in the cost of the program. To register or for more information, please visit or contact the Visitor Centre at 306-663-4522.

Before leaving on your trip to Prince Albert National Park, remember to:

- Check the road conditions on the [Saskatchewan Highway Hotline webpage](#)
- Drive to conditions. If the weather is bad, slow down or pull over, put on your hazard lights, and wait for it to pass.
- Drive carefully and obey speed limits – wildlife stand near or on roads.
- Come with a full tank of fuel and emergency supplies. There are no gas stations open in Waskesiu during the winter months.

Keep the “wild” in wildlife

[For the safety of people and wildlife](#), it is important to be aware of your surroundings and give wildlife lots of space.

Wildlife find their healthiest food in their natural environment and once they become accustomed to being fed by people, they stop looking for their natural foods and are no longer “wild”. In all national parks in Canada, it is illegal to feed wildlife. Help reduce the chance of wild animals getting into pet food, coolers, storage containers, barbecues and other items that have a strong smell by storing them when they are not in use. Visitors are encouraged to store food and scented items in secure places, including vehicles, food storage lockers or bear caches. Please dispose of all waste in the bear-proof garbage and recycling containers provided throughout the park.

Plan ahead with AdventureSmart

As the temperatures drop, be prepared for a cooler visit and dress in warm layers. Check out the [AdventureSmart website](#) before going on the trail for a safe and enjoyable visit! The AdventureSmart Trip Plan app is a quick and easy way to create a trip plan to share with friends or family before you leave on your adventure.

Please check [Important Bulletins](#) when planning a visit to the park.
