PROPER NUTRITION AND REST

Proper nutrition and rest are important for the overall health and fitness level for athletes. Pay close attention to your child's sleep and eating habits. A balanced diet and proper rest are a major safety factor and can either make or break an athlete. Anyone that observes this fact has an edge on their competitors and on life. Pop and candy are prohibited from practice. Water, juice, pretzels, nuts, and fruit for snacks are highly recommended. Your athlete should be active in planning their meals and nutrition.

PRACTICE ATTIRE

Female team members are encouraged to wear a leotard or similar attire. Male Athletes are encouraged to wear shorts and fitted shirt. Baggy clothes and jeans are prohibited for safety reasons. Appropriate undergarments must be worn.
