USE

For use in gas island window wash buckets. Cuts bug residue and road film from windshields. Leaves car & truck windshields shining!

APPLICATION

This tub makes 550 gallons of high quality gas island window wash.
Add one BIRD packet into gas island squeegee bucket and fill with water (at least 1 gallon). Fizzing action speeds dilution. Each packet will make up to 2.5 gallons of blue, sudsy, fresh-smelling solution. Apply BIRD solution with a sponge applicator and allow it to penetrate the bug residue. Scrub with the mesh scrubber side of the squeegee head. Squeegee the windshield dry with overlapping strokes of the rubber squeegee blade.

BENEFITS

- Simple to use
- Cost-effective - No overpour
- No waste - BIRD is packed in a water-soluble packet
- Wintergreen scent cuts bucket odor
