FOR A DECISION AS PERSONAL AND CHALLENGING(?) AS SELECTING YOUR FAVOURITE BISCUIT

The Custard 'Cream of Buggies'

With the choice of colour, designs, functionality and price – you can choose a uniquely perfect system. The vast options can lead to our first parental 'crumble', do not panic – have a cuppa, biscuit and relax.

To help, the 'Cream of Buggies' includes:

- THE BUGGY FUNNEL:** Which models best suit your needs?
- BUGGY FEATURE LIST:** Narrow down your vital features
- SPOTLIGHTS:** Some inspiration from our (long) shortlist
- THE GRID:** Add your feature score to compare
- MY BUGGY NOTES:** Fuse your thoughts

Test them out

How we selected our 'Spotlights'?

After scouring through EXPERT trials, consumer REVIEWS & AWARD winners we selected the 'cream' of the crop. There were many we could not fit in! We hope our mini guide gives you a 'wheely' great start in selecting a perfectly fitting set of wheels. Please feedback (See page 3) if you found this useful, or have any suggestions to make it even more so!

THE PRICES QUOTED ARE A GUIDE, WITH ECONOMIC CHANGES E.G. BREXIT, THEY ARE LIKELY TO FLUCTUATE.

The Buggy Funnel...

FOLLOW THIS FUNNEL, INSPIRED BY MOTHER&BABY, TO DISCOVER YOUR MODEL TYPE.

Double* definitions
 Twin = side by side | Tandem = one behind another | = Suitable for Twins | = Suitable for Siblings

Buggy Feature Checklist

WHEN YOU MAKE THAT EXCITING (CONFUSING?) TRIP TO EXPERIENCE THE WORLD OF BUGGIES, ENSURE THAT YOU FIND AND TEST OUT THE MOST SUITABLE BUGGIES FOR YOUR NEEDS.

They will all have features you love or may trade-off for a pretty pattern or bigger basket! By using this useful tick list, you can whittle down which features are most important to you, hopefully making your shortlisting & shopping experience more pleasurable whilst obtaining your most vital features.

HANDLE HEIGHT

Tall or short? Handle heights vary, some and retract, ensure comfort for frequent drivers.

1 2 3 4 5

ONE HANDED DRIVING

Carrying a child or calling a friend? Check that you can steer the buggy with one hand.

1 2 3 4 5

EASY FOLDING

If you will be a frequent folder ensure it is a sweat free experience. Some can be done one handed.

1 2 3 4 5

CONVERTIBLE TO CARRY TWO

If you plan on more, a single to double can save you buying a new set of wheels down the line.

1 2 3 4 5

SMALL TURNING CIRCLES

This simple feature can be vital in many everyday activities, when testing try spins and pirouettes (remembering you are pregnant).

1 2 3 4 5

MULTIDIRECTIONAL SEAT

Seats can face you or the world. Research shows that parent facing significantly increases speech development, plus you can see that cute face.

1 2 3 4 5

WHEELS FOR BUMPS

Important if you like country walks or cobbles! Inflated or rubber options may trump plastic.

1 2 3 4 5

WASHABLE COVERS / PADDING / LINER

Pristine when you buy them, help baby keep it that way by being washable.

1 2 3 4 5

BIG BASKET

Consider ease of basket access and extra weight that can go on the handles (without it tipping).

1 2 3 4 5

CAR SEAT COMPATIBLE CHASSIS (TRAVEL SYSTEM)

To easily click baby from the car into your buggy chassis. Choose a car seat and ensure it fits into your shortlisted buggies (adaptors typically required)

1 2 3 4 5

1 = Not important 1 2 3 4 5 5 = Crucial

BIG HOOD

Most have a nice big hood but check this and sun protection when out - also ease of fitting the rain cover.

1 2 3 4 5

WEIGHT

Will you need to manoeuvre it upstairs or lift it into a boot etc? Some sturdy models can be heavy.

1 2 3 4 5

SIZE (FOLDED)

Will it fit in your hallway and boot (with shopping, change bag and general clobber)?

1 2 3 4 5

PUBLIC TRANSPORT SUITABLE

For this you might want a light weight, easy folding buggy for efficient, sweat free boarding.

1 2 3 4 5

WHEEL SUSPENSION

No wobbly chubby cheeks providing a smoother ride over bumps (N.B. bumps can help baby nod off).

1 2 3 4 5

ONE HANDED SEAT RECLINE

Try it in store, it's an extremely useful feature.

1 2 3 4 5

BIG SEAT RECLINE

For amazing toddler naps. Baby needs a lay flat unit from birth (completely flat), check the seat unit angle, most require a carrycot attachment to use from birth.

1 2 3 4 5

MATCHING CHANGE BAG

Or you can go for mismatch of accent fabrics or designs (or perhaps a designer piece).

1 2 3 4 5

CUP HOLDER (YOU AND BABY)

Yes - it is an important feature: to keep fluid levels up and still have two hands.

1 2 3 4 5

OTHER FEATURES I WOULD LIKE / SHOULD CHECK OUT:

- | | |
|---|--|
| <input type="checkbox"/> View window in hood | <input type="checkbox"/> Matching footmuff |
| <input type="checkbox"/> Sun shade length + UPF | <input type="checkbox"/> Bag hook |
| <input type="checkbox"/> 5 point safety harness (older child) | |
| <input type="checkbox"/> Easy, well positioned brake | |
| <input type="checkbox"/> Zip pocket for phone / keys etc. | |

MORE TO DIGEST(IVES)

- A higher resale value might mean spending more is worthwhile in the long term.
- You can get some great 2nd hand options, for safety, avoid 2nd hand car seats.
- Check that you are visiting a retailer with as many buggies on your shortlist as possible.
- Baby shows can be a useful day out to experience many in one place.
- Some retailers offer personal shopper services and price matching.
- Some buggies are made to order and may have a long delivery period.
- Baby should not be in a car seat for over 2 hours. Refer to The Lullaby Trust for more.

Baby-Safe
iSense
Smart Lights

Baby-Safe iSense.

Leaving the hospital and using your car seat for the first time can be a nervous experience, but with the new BABY-SAFE iSENSE we have you covered, even in the dark.

The BABY SAFE iSENSE is equipped with three different sets of smart lights to simplify everyday life.

The installation lights turn on automatically when needed and make it even easier to install the infant carrier on the base or a stroller. The safety lights provide visibility and sight when walking through poorly lit areas.

The interior ambient lights allow your baby to see and to be seen. With the new-born insert and five-point harness your baby is always safe and protected. The BABY SAFE iSENSE is available separately or included with the SMILE III travel system bundles.

To see our full range visit our website

Easy for you. Safe and comfortable for baby.

Our Smart Lighting inside the seat allows you to see baby and for them to see you. The Smart Lighting on the outside helps to see where you are going and makes popping the seat into the car easier at night or in dimly lit areas.

New-born Insert gives extra support to small babies and the five-point harness protects your child from all directions of impact.

90-degree rotation when used with the FLEX BASE iSENSE makes placing the baby in and out of the seat easy for you.

Quick-remove cover for those messy spills, whilst the sun canopy offers protection from the sun and wind.

Compatible with most pushchairs, available in Space Black, Frost Grey and Indigo Blue.
