Introduction

Cinderella's stepmother syndrome is named after Cinderella who was fairy-tale character oppressed by her stepfamily until she magically attends a ball and ultimately marries a prince. During this tenure, she suffers with a lot of abuses, anxieties and depression. In this way she represents a syndrome often seen in day to day life.

Definition

Cinderella's stepmother syndrome is the term used to describe the behaviors that stepmothers display in order to become more accepted by the family. (Causa occasionalis/ Psora/ Syphilis/ Sycosis)

Etymology

Cinderella complex - fear of being independent causes unconscious desire to be taken care of by others.

Cinderella syndrome - false accusations made by adopted children of being mistreated or neglected by their stepmothers.

Cinderella dermatosis - skin disease characterized by ash-gray macules occurring most often on palms, extremities, buttocks, and scalp.

Cinderella stepmother syndrome - overcompensation by a stepmother in an effort to be accepted into new family.

Cinderella-in-reverse syndrome - the stepmother's sacrifice to be better than best and her tendency to overcompensate at her expense.

Mini wife syndrome - the extraordinarily attached daughter becomes insecure and depressed after entry of a stepmother.

Super Stepmom Syndrome - Stepmothers feel the pressure and expectations from all angles; their husband, his kids, the ex-spouse and her kids as well (if she has any). As a result, some have a tendency to react to the emotional stresses within the stepfamily by becoming over-involved.

Evil stepmother syndrome - stepmother feels pleasure in teasing and neglecting her step children.

Causes

Step mothering is itself the seamless hurricane for depression. The main causes are as below-

Loneliness and Estrangement

Stepmothers often feel detached from their husbands over stepfamily issues. (Psora)

Rumination

When people ruminate, they over-think or obsess about situations or life events, such as work or relationships. There starts a cycle of rethinking the past, worrying excessively about the future, not taking action, going over and over the same issues, letting concern spread to other issues, until there is a rush of concern and a feeling of being stunned. (Psora/ Syphilis)

Relational Tendencies

The combination of the stepmother's relational tendencies with that of her often less emotional or relational husband and a bunch of annoyed step children may cause a lot of depression. (Psora)

Overcompensation

The stepmother's sacrifice to be better than best and her tendency to overcompensate at her expense may lead to Cinderella-in-reverse syndrome. (Psora/ Syphilis)

Disempowering double standards

Stepchildren are allowed and supported to dislike and resent their stepmothers, while a stepmother must always show unconditional love for her stepchildren. (Psora/ Sycosis)

Punching bag syndrome

Often, stepmothers get blamed for things they are not responsible for. (Psora/ Syphilis)

Unsupportive husbands

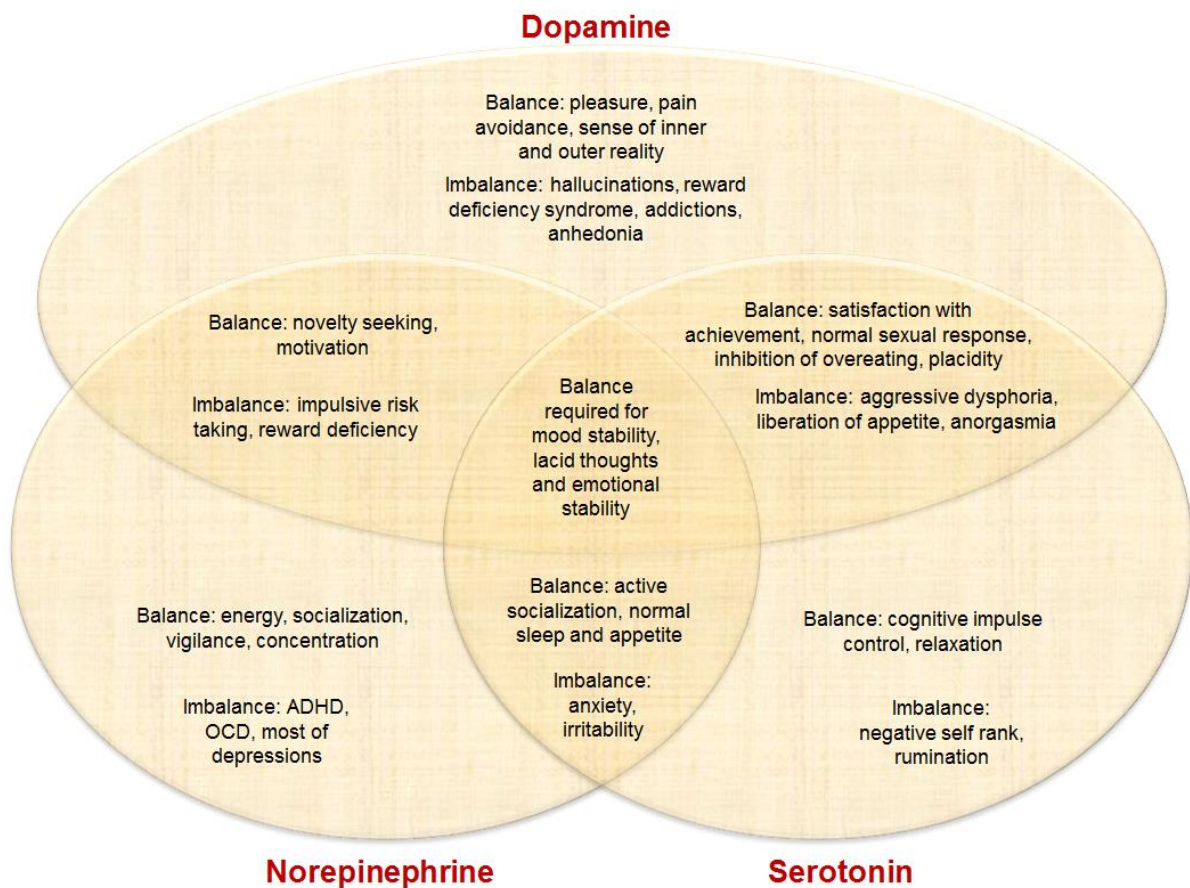

Remarried men with children may expect their wives to be more maternal than they were with their children. Such expectations can crash with women's schedules and desires. (Psora)

Professional preference and bad advice

Stepmothers often face a lot of bad advices and forced acts which they never expect. (Psora)

Pathophysiology

The monoamine-deficiency theory postulates that the underlying pathophysiological basis of depression is a reduction of the neurotransmitters (Psora/ Syphilis) serotonin, norepinephrine or dopamine in the central nervous system. Serotonin is the most extensively studied neurotransmitter in depression.

Role of neurotransmitters in depression

Psychosocial stress and stress hormones like neurotransmitters such as serotonin, norepinephrine, dopamine, glutamate and gamma-aminobutyric acid (GABA) as well as neurocircuitry, neurotrophic factors, and circadian rhythms are responsible for depression.

Symptoms

- Preoccupation with position in the family
- Anxiety
- Feeling of rejection
- Feeling of ineffectiveness
- Feeling of guilt
- Feeling of hostility
- Exhaustion
- Loss of self-esteem

Treatment

Cinderella syndrome- [Acet-ac.](#) [achy.](#) [ACON.](#) [Act-sp.](#) [adam.](#) [aeth.](#) [agar.](#) [agath-a.](#) [agn.](#) [aids.](#) [all-c.](#) [aloe](#) [Alum-p.](#) [alum-sil.](#) [ALUM.](#) [Am-c.](#) [am-m.](#) [AMBR.](#) [Aml-ns.](#) [ANAC.](#) [androc.](#) [ang.](#) [anh.](#) [ant-c.](#) [ant-t.](#) [anthraci.](#) [anthraq.](#) [antip.](#) [Apis](#) [Apoc.](#) [Arg-met.](#) [ARG-N.](#) [arge-pl.](#) [arizon-l.](#) [ARN.](#) [Ars-i.](#) [ars-met.](#) [Ars-s-f.](#) [ARS.](#) [Art-v.](#) [asaf.](#) [asar.](#) [aster.](#) [atro.](#) [aur-ar.](#) [aur-br.](#) [Aur-m-n.](#) [Aur-m.](#) [Aur-s.](#) [AUR.](#) [aven.](#) [Bamb-a.](#) [bapt.](#) [bar-act.](#) [Bar-c.](#) [bar-i.](#) [bar-s.](#) [BELL.](#) [Benz-ac.](#) [bism.](#) [bit-ar.](#) [bora-o.](#) [box.](#) [bov.](#) [bros-gau.](#) [bruc.](#) [BRY.](#) [Bufo](#) [bung-fa.](#) [cact.](#) [cadm-s.](#) [cael.](#) [calad.](#) [calc-i.](#) [Calc-p.](#) [calc-s.](#) [calc-sil.](#) [Calc.](#) [camph.](#) [cann-i.](#) [cann-s.](#) [cann-xyz.](#) [canth.](#) [caps.](#) [carb-an.](#) [Carb-v.](#) [carbon-s.](#) [CARC.](#) [Carl.](#) [CAUST.](#) [CHAM.](#) [CHEL.](#) [chin.](#) [chinin-s.](#) [cic.](#) [Cimic.](#) [cina](#) [cist.](#) [clem.](#) [cob-n.](#) [cob.](#) [coca](#) [Cocc.](#) [Coff.](#) [colch.](#) [COLOC.](#) [colum-p.](#) [Con.](#) [cop.](#) [Cortico.](#) [cot.](#) [Craf.](#) [croc.](#) [crot-c.](#) [crot-h.](#) [cupr-act.](#) [CUPR.](#) [cur.](#) [cycl.](#) [cygn-be.](#) [cypr.](#) [cypra-eg.](#) [dendr-pol.](#) [des-ac.](#) [DIG.](#) [Dios.](#) [diosm.](#) [dioxi.](#) [dream-p.](#) [dros.](#) [Dulc.](#) [dys.](#) [elaps](#) [Epig.](#) [epiph.](#) [euon-a.](#) [euph.](#) [euphr.](#) [falco-pe.](#) [ferr-ar.](#) [ferr-p.](#) [Ferr.](#) [fic-m.](#) [fl-ac.](#) [form.](#) [fum.](#)

Bibliography

Chapter 13. Psychosocial Issues and Female Sexuality > Postpartum Depression Williams Gynecology, 2e ... According to the DSM-IV, postpartum depression refers to the diagnosis of major depressive disorder within 4 weeks after childbirth. However, in research and most clinical settings, any depression developing within 12 months following childbirth is considered to have postpartum onset...

Chapter 16. The Endocrinology of Pregnancy > Management of the Mother Greenspan's Basic & Clinical Endocrinology, 9e ... depression. Partial or total thyroidectomy, especially in the second trimester, is a reasonably safe procedure except for the risk of preterm labor. ...

Chapter 223. Common Medical Problems in Pregnancy > Postpartum Blues, Depression, and Psychosis Principles and Practice of Hospital Medicine ... Between 15% and 85% of normal postpartum women may experience the blues (postpartum blues), which present within the first 10 days after giving birth with a peak incidence at the fifth day. It can be difficult to distinguish from a true depressive disorder given that symptoms include mood swings...

Chapter 24. Fatigue, Asthenia, Anxiety, and Depression Adams & Victor's Principles of Neurology, 10e

Chapter 24. Fatigue, Asthenia, Anxiety, and Depression > Depressive Reactions Adams & Victor's Principles of Neurology, 10e ... Particularly troublesome may be the patient's tendency to hypochondriasis. Indeed, most cases formerly diagnosed as hypochondriasis are now regarded as depression with superimposed anxiety. Pain from whatever cause, a stiff joint, a toothache, fleeting chest or abdominal pains, muscle cramps...

Chapter 24. Fatigue, Asthenia, Anxiety, and Depression > Fatigue, Asthenia, Anxiety, and Depression: Introduction Adams & Victor's Principles of Neurology, 10e ... In this chapter, we consider the clinically related phenomena of lassitude, fatigue, nervousness, irritability, anxiety, and depression. These complaints form the core of a group of "symptom-based" disorders that are a large part of medical practice. Although more abstruse than paralysis, sensory...

Chapter 4. The Health of Women/Mothers and Children Understanding Global Health, 2e

Chapter 7. Diagnosis and Management of Depression Essentials of Clinical Geriatrics, 7e

Decision-Making in Clinical Medicine > CLINICAL PRACTICE GUIDELINES Harrison's Principles of Internal Medicine ... as quality indicators. Examples include the proportion of acute MI patients who receive aspirin upon admission to a hospital and the proportion of heart failure patients with a depressed ejection fraction treated with an ACE inhibitor. ... 297e...

Depression & Other Mental Health Issues Current Diagnosis & Treatment: Geriatrics

Depression > MOOD DISORDERS: MAJOR DEPRESSION & RELATED CONDITIONS Behavioral Medicine: A Guide for Clinical Practice, 4e ... Major depressive disorder (MDD) is associated with considerable disability, morbidity, and mortality. Epidemiologic studies demonstrate that depression causes more disability and social and role impairment than most other chronic illnesses, such as diabetes, arthritis, hypertension...

Encyclopedia Homoeopathica

Mental Disorders > MOOD DISORDERS Harrison's Principles of Internal Medicine ... Mood disorders are characterized by a disturbance in the regulation of mood, behavior, and affect. Mood disorders are subdivided into (1) depressive disorders, (2) bipolar disorders, and (3) depression in association with medical illness or alcohol and substance abuse (Chaps. 467 , 468e...

Psychiatric Disorders > Major Depression Williams Obstetrics, 24e ... TABLE 61-2 Symptoms of Depressive Illness a Persistent sad, anxious, or "empty" feelings Feelings of hopelessness and/or pessimism Feelings of guilt, worthlessness, and/or helplessness Irritability, restlessness Loss of interest in activities...
