

My Failures with Homoeopathy

Dr. Rajneesh Kumar Sharma

Dr. Rajneesh Kumar Sharma

BHMS, MBBS, MD (Homoeopathy), hMD (UK), DI Hom (London), DLit (UK)

- ❖ Chief Managing Director- Homoeo Cure & Research Institute, Vaibhav Homoeopathic Pharma and Sparsh Multispecialty Hospital
- ❖ Recipient of many International and National Awards
- ❖ Faculty to several National and International Conferences
- ❖ International Vice President- Homoeopathy World Community
- ❖ Executive Member- Delhi Homoeopathic Medical Association
- ❖ Life Member- Homoeopathic Medical Association of India
- ❖ Life Member- Indian Institute of Homoeopathic Physicians
- ❖ Life Member- Indian Medico-legal and Ethics Association
- ❖ Author of several Research Papers, Articles, Case Presentations, and Books

Some facts- Dark side of Homoeopathy

- Homoeopathy is the second largest system of treatment
- Homoeopathy is supposed to be non scientific by advocates of so called modern medicine
- Continuous efforts are being done by non Homoeopathic doctors to defame and quash the authenticity of Homoeopathy
- Various publications are ready to bout the span of Homoeopathy

Some bitter examples from vaults

Science

Forget coronavirus, homoeopathy can't cure anything. It's a placebo, at best

Homoeopathy may be very popular in India but global experts dismiss its efficacy. An Australian review found it ineffective, and Spain is considering a ban on it.

Hundreds of Babies Harmed by Homeopathic Remedies, Families Say

<https://theprint.in/science/forget-coronavirus-homoeopathy-cant-cure-anything-its-a-placebo-at-best/363174/>

Who is responsible for decay of Homoeopathy ?

- The most renowned Homoeopaths- Internationally- Critically high impact
- The well known Homoeopaths- Nationally- Very high impact
- The popular Homoeopaths in particular areas- Zonally- High impact
- The well settled Homoeopaths in towns- Regionally- Appreciable impact
- The struggling Homoeopaths- Locally- Low impact

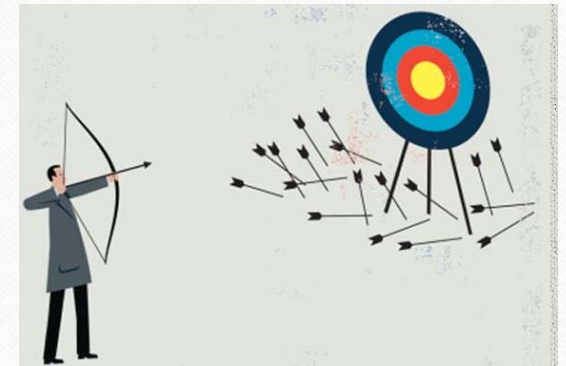

Responsibilities of Homoeopaths for the sake of Homoeopathy

- The most renowned Homoeopaths- Internationally- Grade one
- The well known Homoeopaths- Nationally- Grade two
- The popular Homoeopaths in particular areas- Zonally- Grade three
- The well settled Homoeopaths in towns- Regionally- Grade four
- The struggling Homoeopaths- Locally- Grade five

We must learn from our failures

- In Intra-Homoeopathic seminars and CMEs, we must discuss about our failures
- We must discuss about the causes behind failures
- We must discuss about our limitations
- We must discuss about the solutions to reduce the frequency of failures
- We must discuss to reduce the limitations and expand the domain of Homoeopathy

We must publish our achievements

- We must acquaint us with full of knowledge and confidence
- In Inter-medical streams seminars, we must present our achievements
- We must publish our scientific papers with full evidences
- We must advocate the efficacy of Homoeopathy with facts and proves
- We must educate others about positivity of Homoeopathy
- We must try to show the bright side of Homoeopathy to others and try to keep dark side for Homoeopaths only, as personal asset

We must not have a delusion of having superhuman or para-scientific powers

- We must know the limitations of Cure in a case
- We must know the limitations of Homoeopathy
- We must know the advantages of Homoeopathy
- We must know the limitations of other systems of medicine
- We must know advantages of other systems of medicine
- We must know the scientific explanation of disease, treatment and cure

Often, 'Miracles' are not scientific

- We must not exaggerate the cures into miracles
- Miracles are supposed not to be related to science
- Miracles are related to Para-scientific, Superhuman or Godly acts
- Cure whenever unexpected, or too quick than expected time, are called as miracles
- 'Miraculous cure' may easily be explained in scientific terminology

Some failures in cure, faced by me

- In my about 30 years of practice, I have seen numerous cures, even so called miraculous cures
- I have discussed in various conferences about several of them
- On other hands, I have multifold of failures too
- I never disclosed them to maintain my dignity
- After looking the defaming statements by public and various authorities, I realized, that I must discuss some of my leading failures

Failure -1

Hepatic Cyst- Ruptured with Sulphur

1. Clipboard 1

- ▶ 1. GENERALS - FOOD and DRINKS - fat - desire

Learning from Failure

Critical chronic cases with gross pathology
Start with Acute Remedies

- **Mechanism of Hepatic cyst rupture**
 - Old age
 - Immunocompromised patient
 - Latent Psora
 - **Sulphur** re-activated Psora
 - Inflammatory processes started
 - Cystic lysis took place
 - ICU engaged
- **Second prescription with cure**
 - Acute inflammatory stage
 - **Aconite**
 - Acute of Sulphur
 - Much improvement
 - **Sulphur**
 - Case cured

Failure -2

Childhood atopic eczema- worsened with Lycopodium

Learning from Failure

Hypersensitive and autoimmune cases

Start with Remedies similar to mental symptoms

- **Mechanism of pyoderma development-**

- Childhood age
- Hypersensitive, autoimmune patient
- Active Psora
- **Lycopodium**, the similimum remedy caused aggravation of all the ailments
- Severe inflammatory processes started
- Opportunistic infections took place and pyoderma started
- PICU engaged

- **Second prescription with cure**

- Acute inflammatory and supportive stage
- Mentals prevailing- aversion playing and petulance (moodiness)
- **Rheum**
- Much improvement
- Lycopodium
- Case cured

Seizure disorder- Increased ICT with Silicea

		sil.	causa.	nux-v	calc.	ign.	lyc.	op.	sep.	bell.	bry.	cham.	dc.	hell.	hyos.	lach.	merc.	staph.	sulph.	verat.	canth.	kali-c.	plb.	ruta.	cypr.	agar.	taren.	aur.	con.

Clipboard 1

1. MIND - INJURING HIMSELF (8) 1

2. MIND - HYSTERIA - hypochondriasis; with (86) 2

3. GENERALS - CONVULSIONS - sleep - deep sleep after convulsions (17) 2

4. FEMALE GENITALIA/SEX - MENSES - absent - hysteric women; in (2) 3

5. HEAD - PERSPIRATION of scalp - sleep - during (22) 2

6. HEAD - PERSPIRATION of scalp - convulsions; before epileptic (1) 2

Learning from Failure

Hypersensitive and hormonal compromised cases
Start with Remedies based on causative symptoms

- **Mechanism of increased intra cranial tension-**

- Hypersensitive hormonal compromised patient with suppressed menses
- Active Psora
- **Silicea**, the similimum remedy caused aggravation of all the ailments
- Cerebral hyperemia started
- Intracranial hypertension developed
- ICU engaged

- **Second prescription with cure**

- Severe ICT
- Causation prevailing- menses absent for a long time in a hysteric women
- **Cypripedium pubescense**
- Much improvement
- Case cured

Failure -4

Spondylolisthesis-Totally failed without physiotherapy

Learning from Failure

Disorders with bio-mechanical changes

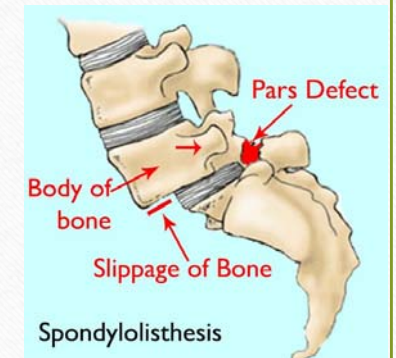

Start with Physical/ Surgical measures along with indicated remedy

- **Mechanism of failure in spondylolisthesis-**

- Mechanical disorder
- Dislocation of vertebra
- **Guaicum, Kali iod, Bryonia alba, Colocynth, Pulsatilla, Tellureum, Lachesis**, the best indicated remedies at various times did not relieve, rather caused aggravation of all the ailments
- Patient became bed ridden
- Private ward engaged

- **Second prescription with cure**

- Dislocation of a vertebra over another
- Causation for pain and radiculopathy prevailing
- **Physiotherapy**
- MIND - CENSORIOUS - everything; desire to criticize:
Guaicum
- Much improvement
- Case cured

Thank You
