

BOLAWRAP 150 NYLON HOLSTER SPECIFICATION SHEET

HOLSTER SPECIFICATION

PRODUCT FEATURES

- Attaches with a belt clip. Also available in MOLLE and Thigh Rig mounting configurations.
- Elastic bands secure the BolaWrap 150 in a holster during normal activity when re-holstered correctly.
- Elastic bands allow you to draw the device normally with one hand sliding from the holster body to BolaWrap 150 frame in a single movement.
- All models are made of high-quality, durable polymer nylon, which will withstand the most rigorous tests. Low maintenance and high performance in all environments.
- Each holster is shipped with a push button locking mount for the belt loop for easier transfer of the device.
