Our Partners

IHSE is a leading developer and manufacturer of advanced KVM devices.

Since the last 35 years, IHSE has been a leading developer and manufacturer of advanced KVM devices in global demand. KVM stands for Keyboard, Video, Mouse. KVM technology allows the switching, extension and conversion of these three primary computer signals and many else, e.g. DVI, HDMI, digital audio or USB. At their headquarters near Lake Constance, Germany, IHSE develops and manufactures switches for operating and switching between computers and consoles, as well as extenders for visually lossless signal transmission, with 30 years of experience.

Since the last 33 years, Riedel Communications has been designing, manufacturing and distributing innovative real-time networks for video, audio and communications. Its products are used for broadcast, pro-audio, event, sports, theatre and security applications worldwide. The company is known for pioneering digital audio matrix systems and fiber-based real-time network technology. Riedel is headquartered in Wuppertal, Germany and employs over 600 people in 20 locations throughout Europe, Australia, Asia and the Americas.

The Barco logo consists of the word "BARCO" in a white, bold, sans-serif font, followed by a white icon of a stylized eye or camera lens. The logo is centered within a red rectangular background.

Authorized partner

Barco is a global technology leader that develops networked visualization solutions for the entertainment, enterprise and healthcare markets. Their solutions help people enjoy compelling entertainment experiences; they foster knowledge sharing and smart decision-making in organizations and help hospitals provide their patients with the best possible healthcare. Barco was founded in 1934 in the town of Poperinge, in the Flemish-speaking region of Belgium. Founder Lucien de Puydt's initial business was to assemble radios from parts imported from the United States-hence the name of his company, the Belgium American Radio Corporation, or "Barco."
