Corporate Profile

Oakwood Controls
Integrated Sensor Solutions

Our Mission

Our mission is simple – to help our US and allied military and law enforcement customers be the most lethal, first round shooters in the world. And, to help our industry customers produce accurate weapons platforms.

Introduction

Oakwood Controls is the leading US manufacturer of live fire electronic target systems.

Founded in 2009, the company's technology evolved from a expertise in military sensor integration and a passion for long range shooting.

Today, Oakwood target systems are in use by all branches of the US military and are trusted by the top tiers of US Special Operations Forces and allied special forces around the word.

We also provide measurement equipment to well-known manufacturers of weapons, ammunition and accessories, as well as to leading government research organizations around the world.
