

Memory and Hardware Compatibility for Intel® Server Board S2600GL/S2600GZ Families

Documentation

Content Type	Compatibility
Article ID	000006877
Last Reviewed	01/30/2020

Intel only provides support for the Intel® Server Products used with validated hardware (memory, add-in cards, and storage devices) and in the verified by Intel CMTL Tested Memory List. The [Computer](#) Memory Test Labs* (CMTL) list is built and maintained by CMTL and contains results of testing memory for compatibility with Intel® Server Products as requested by memory manufacturers.

The following links navigate to the CMTL Tested Memory List:

Intel® Server Board S2600GL Family	CMTL Tested Memory List
Intel® Server Board S2600GZ Family	CMTL Tested Memory List

Note

A pre-generated Memory and Hardware Compatibility List document is TBD.
