Industry Background

2015 -2013: CoolChip Inc. - Huntington Beach, CA - President

Manufacturer representative company focusing on thermal solutions for PCBs (Printed Circuit Boards). Developed solutions for high density applications by utilizing a new form of silicon technology.

2013-2003: Stablcor Corp - Huntington Beach CA - Co-founder / VP Sales & Marketing

Thermal management company focusing on the PBC and IC substrate industries. Merged two product technologies; electronics and carbon fiber laminates to transfer heat away from areas within a PCB.

2003-2000: Vital Technology – Huntington Beach CA – President

Memory module supplier utilizing CMTL Advanced and Intel certifications for high density module integration into commercial enterprise server applications.

2000 -1997: Ramtek – Huntington Beach, CA – President

Developed and provided high performance stacked die for high density memory module designed for enterprise server and workstation applications.

1997-1989: Samsung Semiconductor – San Jose, CA- Southwest Regional Sales Manager

Global manufacturer of advanced microelectronics, including memory components (DRAM, NAND Flash, and HBM) and modules, system LSI (mobile processors, image sensors, display drivers), Power Management ICs (PMICs, smart card ICs, custom foundry manufacturing services.

1988-1986: Western Micro - Cupertino CA- Southwest Regional Sales Manager

Distributor of semiconductors, microprocessors, controllers, CPUs, DRAM, SRAM),non-volatile PALs, workstations, hard disk drives, controllers, boards, graphics processors, displays, and controller boards.

1986-1983: Anthem Electronics – San Jose, California - Field Sales Representative

National distributor of semiconductors including RAMs, ROMs, and PROMs, computer subsystems, hard disc drives, disk-drive controllers, display terminals, power supplies and switching components.

1983-1980: Arrow Electronics - San Gabriel Valley, CA- Field Sales Representative

National distributor of semiconductors, passive, electro-mechanical, and interconnect products (resistors, capacitors, relays, switches, and connectors), hard disk drives and subsystems.

1980-1975: Hamilton/Avnet - Culver City, CA – Inside/Field Sales Representative

National distributor of semiconductors, microprocessors, ICs, capacitors, relays, resistors, potentiometers. Floppy and hard disk drives. EEPROM, EPROM, flash memory programming.
