John Deters
Computer Memory & Storage Background

Present: CMTL, Irvine, CA : Founder
Formed as a industry organization to amplify awareness about new and unprecedented level of fraud and security risks involving enterprise server and data center memory modules.

2026-2024- Educational sabbatical to complete quantum computing, cryptography, artificial intelligence and blockchain technology classes, courses and certifications.

2023-2020: CMTLabs, Inc., Newport Beach, CA: **Founder/CEO**
Explored new opportunities and applications for the digital currency platform developed by CMTL (Computer Memory Test Labs, Inc.) successfully introduced in 1999.

2020-2019: Cal Coast Technologies, Inc., Newport Beach, CA: **Founder/CEO**
Provided SMVL (Storage and Memory Validation Labs, Inc.) with consulting services and managed the transfer of the Intel server memory testing program from CMTL to SMVL.

2019-1996 : CMTL (**Computer Memory Test Labs, Inc.),** Huntington Beach, CA: **Founder/CEO**
Provided independent 3rd party memory module compatibility/functionality testing and certification on Intel and clone, motherboards, workstations and server platforms.

1996-1995: NetMemory, Inc. Costa Mesa, CA: **Founder/CEO**
Manufactured memory modules with performance designs for optimization on Intel motherboards, workstations and server platforms.

1994-1993: VisionTek, Gurnee , IL: **Vice President of Strategic Planning**
Leading manufacturer of memory modules in the retail business sector.

1992-1991: Simple Technology, Santa Anna , CA. **Vice President of Sales**
Leading manufacturer of flash memory, DRAM modules, PCMIA cards and SSDs.

1990-1988: ATS (Anthem Technology Systems) San Jose, CA: **Founder/Managing Director**
Formed as a division of Anthem Electronics, a leading semi-conductor components and computer peripherals distributor. ATS assembled and sold hard drive subsystems

1987-1985: Peachtree Technology, Norcross, GA: **Founder/CEO**
Introduced the first half height 5.25” and 3.5” add-in hard disk drives for the IBM PC and first add-on hard disk drives for the IBM XT and Apple MacIntosh computers.

1984-1983: Tandon Corporation, Chatsworth, CA: **District Sales Manager**
Manufactured 5.25” and 8”floppy drives, 5.25” and 3.5” hard disk drives.

1982-1980: Shugart Associates, Sunnyvale, CA: **Sales Representative**
Manufactured 5.25” and 8” floppy disk drives, 8” and 14” hard disk drives.

1979-1977: TSA (Technical Sales Associates), Gaithersburg, MD: **Sales Representative**
TSA was a leading manufacturer rep firm specializing in bulk core memory storage products for minicomputer manufacturers including IBM, HP, DEC, Data General and Varian.
