

Readiness Assessment Checklist

Youth Health Transition

Youth health transition is the time to get ready for the move from pediatric care to adult health care, work, and independence. Learning to manage your health and health care takes time. Experts recommend you start planning for this transition around age 14. This gives you enough time to develop the skills you will need. A **readiness assessment** is a list of questions about taking care of you and your health care. Filling one helps you figure out which skills you need to work on to do things on your own. If you need help, ask a family member for assistance.

Youth Health Transition Readiness Assessment (Adapted from Got Transition 2.0)

Fill out the checklist below to see what you already know and what you may need to learn more about when it comes to managing your health and health care.

My Health

(Check the box that applies to you right now)
