Intelligence – Counterintelligence – National Security

A genuine passion for finding, understanding and mitigating threats

Proactive and insightful **Analyst** with powerful mix of experience in National Security and Intelligence reporting. Deep familiarity with various Intelligence Community partners and their operations. Demonstrated understanding of research, analysis and use of tools specific to intelligence. Able to communicate complex ideas through analytical assessments. Cleared for appropriate level for I.C. customers.

PROFESSIONAL EXPERIENCE

U.S. INTELLIGENCE COMMUNITY (I.C.) | 2018-Present

The United States Intelligence Community (IC) is a group of separate United States government intelligence agencies and subordinate organizations, that work separately and together to conduct intelligence activities to support the foreign policy and national security of the United States.

Intelligence Analyst

As Contractor to the U.S. government, provide analytical support to Intelligence Communities (IC). Collect and disseminate information for purpose of finding cause and effect relationships. Intelligence collected is Opensource (OSINT), Classified and Research-based.

Focus areas: narcotics trafficking, human trafficking, counterintelligence and threats to national security.

- Manage a full range of operational and support activities for the Intelligence Communities to include in-depth research on existing cases and intelligence assessments using opensource and classified information.
- Identify and evaluate possible intelligence concerns, provide written products and briefings on intelligence products.
- Provide intelligence support to high priority projects that have broad and visible impact within the IC.
- Manipulate multiple sets of data to derive inputs for intel and targeting packages, finding patterns and closing intelligence gaps.
- Gather, evaluate, and prepare intelligence reports and create target profiles to maintain and establish intelligence records and files.
