Drinking Water Grant

6/3/25 – SFPD Receives Grant from Anheuser-Busch

The Sullivan Fire Protection District was selected to receive a pallet of drinking water to hydrate emergency responders through the Emergency Drinking Water for Wildland Firefighters program. This program, led by Anheuser-Busch and the National Volunteer Fire Council, provides free water to emergency services each summer.

Anheuser-Busch has a longstanding commitment to providing support for disaster relief and preparedness efforts in communities across the country. Every year, Anheuser-Busch periodically pauses beer production to can emergency drinking water to be ready to lend a helping hand during natural disasters and other crises. Building on this commitment, the brewer teamed up with the National Volunteer Fire Council (NVFC) in 2019 to create the Emergency Drinking Water for Wildland Firefighters program.

Ladder Truck - 8812

Exciting news for the Sullivan Community!

Coming soon, January 2026, the ladder truck will be moving to station 1 and will be staffed with firefighters 24/7. The tax increase is for hiring personnel and staffing station 1 ,24/7, to improve service. The plates arrived June 4th.

Thank you, Sullivan Community.

Congratulations!
Cody Carroll
Passed the EMT exam! Way to go Cody!
