

Classroom Headphones

The LSS PTO is providing an opportunity for students to purchase their own set of headphones for use on computers and tablets during the school day. Purchase of this particular set is optional, but we strongly recommend that all students have their own set of headphones and/or ear buds. The headphones we have chosen are inexpensive yet durable, designed specifically for the classroom environment by LabSonic.

Headphones will be stored in plastic bags in the classrooms for maximum hygiene, but students are responsible for their care. As students advance to a new grade, the headphones will be transferred directly to their new classroom or sent home at the end of the school year. Headphones will be sent home at the end of 5th grade or if a child permanently leaves the school. Shared headphones will be accessible to students as needed.

Headphones can be purchased for \$10.00 per pair - please send cash or a check made out to "LSS PTO" and return it with the form below in an envelope marked "LSS PTO Classroom Headphones" by September 11th.
