ENVIRONMENTAL MANAGEMENT POLICY

Environmental Policy Statement

The following environmental policy statement has been prepared and agreed by Colag management and staff.

Colag Insulations Ltd is a business whose intention is to supply and install thermal Insulation services in commercial, Industrial and in some cases domestic sectors. Colag recognises that our operations impact on the environment at global, national and local level.

As such we are committed to:

- Safeguarding the environment, and striving to prevent pollution and provide sustainable solutions wherever possible
- Minimising the negative impacts of our activities on the environment in the delivery of our services and our choice or use of resources
- Reviewing our practices, procedures and services continually, to improve our performance within the guidelines of our professional organisation [TICA]
- Advising our clients and others on the reduction of environmental impact, and engaging our suppliers, associates, and clients in environmental initiatives and best practice
- Maintaining up-to-date knowledge of and complying with relevant environmental legislation and regulations
- Seeking continual efficiency improvements in all our activities
- Communicating this policy to our employees, associates, suppliers, clients, and other parties in our literature and proposal documents
- Training and updating our staff on this policy and related environmental issues
- Reviewing this policy and our delivery of it continually against our corporate objectives and developments in environmental issues

Environmental Policy of Colag Insulations Ltd

Colag Insulations Ltd is committed to the care of the environment and the prevention of pollution. Colag acknowledges our responsibility to ensure that all our operations are carried out in with the minimum adverse effect on the environment, and to comply with all applicable legal and other requirements to which we subscribe which relate to our environmental aspects.

Colag is committed to continually improve its environmental performance. This policy provides a framework for periodically setting and reviewing objectives and targets as part of that commitment.

In line with these principles it is our policy to: -

Assess our activities, products and services with respect to their environmental aspects and impacts, and incorporate all practicable procedures and controls to prevent environmental damage and pollution.

Minimize, control and as far as possible prevent the release of pollutants or other substances to air, water or land.

Improve the efficiency of our operations by monitoring our consumption of energy and resource, and reducing, reusing or recycling waste materials.

Introduce and maintain an Environmental Management System which conforms with ISO14001

This policy is displayed on our company notice board(s) and communicated to all employees of ABC, along with their individual responsibilities, through appropriate training and awareness-raising. It is publicly available on request to shareholders, customers, any other stakeholders, and the general public.
