

John Suzuki

AUTHOR – SPEAKER – PODCASTER

JohnSuzuki.com

John Suzuki wrote the Amazon best-seller American Grit, to inform the world of the concentration camps in America during World War II, and the remarkable men who refused victimhood and volunteered from those camps to fight and die for the U.S. Army – the same Army that incarcerated them and their families – and became some of the most celebrated heroes of all time. He calls it “the greatest superhero love story ever *lived*.”

As host of the “Finding Better Podcast,” John and his guests share real-life experiences and wisdom his listeners can copy to achieve the “better” they want in life. As John always says, “When you lift others you lift the world.” Also a 40-year veteran of sales and technology evangelism, John is a featured speaker known for his authentic, inspirational and entertaining storytelling style.

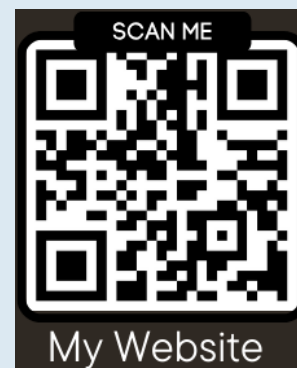

STORY IDEAS

- Making better choices for better life.
- Coming together and overcoming fear and divisiveness.
- Concentration camps in America; never again, never forget.
- The superpower of caring in leadership and sales.
- American Grit: Epic teamwork for historic success.
- Rejecting victimhood: to live better and be your own champion.
- From the camps: The greatest superhero love story ever lived.
- Giving more: The key to better in everything.
