20 mins	<b>Presentation 3:</b> Analysis of Palma Planning	<i>Arturo Samper, Partner at URD Consultants</i>	EN
20 mins	<b>Q&amp;A</b>		

# The MSP is reassessing its governance structure to accommodate for future growth and GoM vision for coordination in the North

## Long-term governance structure of the MSP...

## ... is being coordinated with key stakeholders

- **ADIN:** one of the primary strategic pillars of ADIN's mandate will be coordination of development efforts in Northern Mozambique. The MSP has ongoing coordination with ADIN to determine their role in MSP governance.
- **Government of Cabo Delgado:** members of the governor's cabinet have been named as central points of contact for working groups with Dario Passo (Director Provincial do Plano e Finanças) as the coordinator
- **PPDS-CD:** currently negotiating collaboration between the MSP's strategic working groups and the 10 community-based working groups of the PPDS that focus on natural resource management

# Upcoming MSP events and touchpoints- live sessions dependent on state of emergency and advisability of in-person meetings

# USAID/OTI through its *Tuko Pamoja* program is partnering with the MSP during its Pemba launch

**USAID**  
FROM THE AMERICAN PEOPLE

Tuko Pamoja (implemented by DAI) seeks to enhance locally-driven resilience to conflict and change in Northern Mozambique. The program funds a wide range of local community organizations and initiatives aimed at increasing understanding of the dynamics of conflict, empowering local change agents, and increasing trust and engagement between key stakeholders.

In the interest of improving stakeholder engagement, the program is supporting the costs associated with the current phase of MSP secretariat as a bridge to a more secure, long-term funding structure.

## USAID/OTI and MSP partnership will focus on

Launching **Pemba-based** working groups

Increasing connectivity between MSP members and **the local community**

Augmenting the **security focus** of MSP dialogue and deliverables

Increasing **local government** buy-in to collaborative efforts

# O setor privado em CD encontra-se fortemente fragilizado devido a uma serie de acontecimentos

# A 11 de Junho de 2020, o CEP CD registou o fecho de 65 empresas e a rescisão de quase 7 mil contratos

- A maior parte dos **empregos perdidos** neste periodo observam-se no setor do **Oil & Gas**
- **Empresas provedoras de serviços e construtoras** constituem a maior parte das empresas a fechar
- É possível ainda que o número de Empresas e trabalhadores afetados seja superior ao acima apresentado.

# Para assegurar um futuro melhor, é necessário investir social e economicamente no desenvolvimento da província

1. Complementar combate à insurgência com **investimento na geração de emprego**, fortalecendo a juventude contra o recrutamento
2. Criar condições favoráveis para o **financiamento de PMEs**, nomeadamente relativamente às taxas de juros e prazos de reembolso
3. Operacionalizar competentemente **infraestruturas existentes** (Portos comerciais e bases logísticas da província) e **investir em obras estruturais** (como vias de acesso)
4. Alavancar a atividade económica dos projetos GNL para o **crescimento do conteúdo local**
5. **Fortalecer corredores de desenvolvimento para assegurar o crescimento da região inteira** (ex.: criar rede de acessos com a província do Niassa para uma maior utilização dos portos de Pemba para exportação)
