

We find the gaps in your third-party risk program, close them, and leave the program measurably stronger than we found it. Founded by **Gregory Rasner** — author of four books on third-party and cyber risk, and host of the weekly *Third Party Threat Hunters* podcast.

WHAT WE DO

- **Third-party risk assessments**
Vendor-by-vendor review against the control set your examiner actually tests.
- **AI risk assessments and AI-agent training**
Shadow AI discovery, fourth-party model dependency mapping, agents trained on your review process.
- **TPRM program effectiveness reviews**
Where the program leaks, why, and what to fix first.
- **Assessments mapped to TPRA's TPRM Maturity Model**
Bring your current-state scoring; we build the gap-closure plan.
- **Compliance and audit alignment**
Evidence, mapping, and remediation ahead of the exam.
- **Custom, CPE-accredited team training**
Built for your program, your sector, and your people.

RESULTS FROM RECENT ENGAGEMENTS

100%

regulatory compliance alignment
with a 40% reduction in review time

96%

accuracy on vendor-review
AI agents trained for a client

4 yrs

consecutive team training
delivered to a single client

WHO'S BEHIND IT

Gregory Rasner — Founder & CEO

Before founding TPTH, Greg spent six years as **Senior Vice President of Cybersecurity Third-Party Risk at Truist**, building and running the third-party cyber risk program at one of the largest banks in the US. 25+ years in IT and security, including security leadership at Cisco, Charles Schwab, IQVIA, and the Federal Home Loan Bank of San Francisco. CISSP, CIPM, CCNA, ITIL.

Books: Cybersecurity & Third-Party Risk · Zero Trust & Third-Party Risk · AI & Third-Party Risk · Privileged Access Management

Podcast: Third Party Threat Hunters — weekly interviews with CISOs and GRC leaders
