Overview

iGLOO is a digitally controlled recessed linear luminaire with unrivalled output and power. iGLOO delivers up to 4750 lumens at over 100 lumens per Watt and has outstanding flexibility with digital control via Casambi wireless or Dali control. Multiple length variants are available, from 300mm to 1200mm, and if higher or lower output performance is required, solutions can be provided.

The product is designed for application into high end retail displays, or cabinet lighting allowing designers great power and punch from a small luminaire.

Features

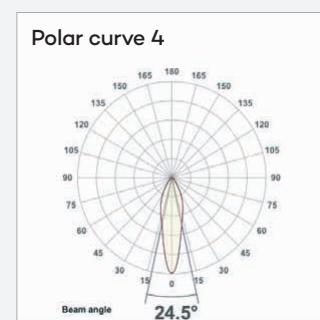

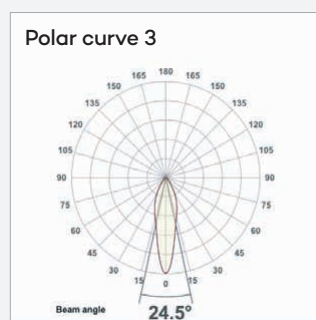

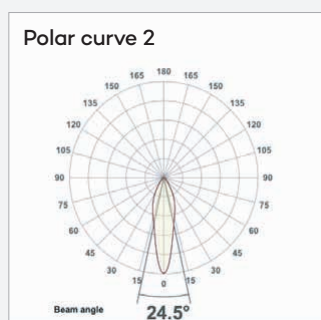

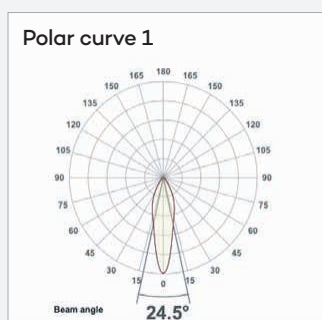

- Minimalist fully integrated linear with multiple control options including casambi
- Exceptional power per metre from a compact light source
- Delivering 4750 or 3600 lumens per metre at over 100 Lumens per Watt

Options

- Choice of output with bespoke outputs on request.
- Casambi or Dali control as standard - DMX also an option
- Narrow and wide beam options available
- Choice of 2700, 3000, 4000K
- Black, white and RAL paint finish options.
