

# S-215 Fire Operations in the Wildland Urban Interface

## In-Person Delivery

November 8-10, 2021 | 8:30AM – 5PM

### Course Description

This is an instructor-led course intended to be presented at the local level. Instructional units include firefighter safety in the interface, managing human factors in the interface, pre-incident planning, size-up and initial strategy, structure triage, structure protection overview, tactics in the interface, tactical operations and resource use in the interface, action assessment, plan update, and after-action review.

### Objectives

- Operate safely and effectively in a wildland urban interface incident by using situation awareness, performing structure triage, using pre-planning tools, having a basic understanding of fire behavior, and using strategy and tactics unique to the wildland urban interface environment.

### Target Group

Designed to assist any emergency responders who will be planning for and making operational decisions during an interface incident. This course is for personnel desiring to be qualified as Incident Commander Type 4 (ICT4), Task Force Leader (TFLD), or any Strike Team Leader.

### Prerequisite Qualifications and Training

Qualified as a Firefighter Type 1 (FFT1).

**Successful completion results in an NWCG certificate.**
