## LEGAL AND PSYCHOLOGICAL TOOLBOX FOR FIRE DEPARTMENTS, FIRE OFFICERS AND EMERGENCY MEDICAL SERVICES

Today's fire service is a complicated mix of people, money, rules and regulations with many laws guiding the management and direction of our service. Unfortunately, all too often, fire departments and their personnel find themselves facing lawsuits due to violations of these laws, rules and regulations.

This series of legal and PEER Support presentations is designed to bring to the forefront those issues that can get fire districts and fire district personnel including elected officials into legal jeopardy. There is a tangible link to the state and federal laws that govern our fire departments. It is incumbent on every fire officer, firefighter and elected official to know and understand how these two disciplines are interconnected.
