ENTERPRISE PAINTS & COATING SOLUTIONS

- Enterprise Paints & Coating Solutions Inc. (EPCS) is a Canadian company, registered and incorporated in Alberta, Canada in 2022 as a distributor of some of the leading global brands of Marine, Protective, Industrial & Specialty Paints & Coatings.
- We plan to manage operations in North America through setting up our offices & distribution hubs in Calgary (AB), Toronto (ON), Houston (TX) and Puerto Penasco (Mexico), a manufacturing facility in Phoenix (AZ), a state of art R&D center in Calgary (AB) and channel partners in California, British Columbia, Alberta, Nova Scotia and Mexico.
- We started Enterprise Paints & Coating Solutions LLC in Dubai (UAE) soon to become a manufacturing, sales and distribution hub to support our operations in the Middle East & North Africa. We also plan to have channel partners in Alexandria (Egypt) and set up a manufacturing, sales and distribution hub in Casablanca (Morocco) to support our operations in NW Africa.
- We recently established our office in Cape Town (South Africa) soon to become a manufacturing, sales and distribution hub to support our operations in Sub-Saharan Africa. With our extensive global network and connections, we plan to have channel partners strategically located within growing economies in Africa such as Nigeria.
- Our management team has a combined global experience of 100+ years in the Paints & Coatings world, gained through their association with multi-national companies over the last 3 decades.
- We believe the novel technologies we have at our disposal as listed below is a game changer in the industry around the globe.

ENTERPRISE PAINTS & COATING SOLUTIONS INC.

1. Protective & Marine Coatings

- PPG are one of the largest paint company globally.
- EPCS is the Authorized Distributor of PPG Protective & Marine Coatings in North America

2. Marine & Protective Coatings

- Single component moisture cured Polyurea
- Cures at -20C, under 6% to 99% humidity and underwater
- Meets Norsok M501 and ISO12944 C5VH standards for high corrosive conditions
- Approved by Shell for both onshore and offshore projects
- Offers 10,000 to 20,000 hours of Salt Spray resistance
- Superior in performance compared to conventional two component Epoxy and Polyurethane coatings.

3. Cold Galvanizing system

- Single component offering 98% Zinc in the film and superior in performance to hot dip galvanizing
- EPCS is a Distributor for North America, Middle East & Africa

ENTERPRISE PAINTS & COATING SOLUTIONS INC.

4. Packaging Coatings

- Metal Packaging Coatings for Food, Beverages, Drums, General line, and Aerosol cans based on in-house technologies.

5. Corrosion Protection Systems

- At EPCS, we have globally partnered with a manufacturer of a unique patented eco-friendly non-toxic technology for surface preparation of Steel, Aluminum and Concrete for application of Protective Coatings under adverse environmental conditions conducive to **Flash Rusts** and **Rust Backs**.
- This surface treatment technology is a one-step solution which passivates metal surfaces, decontaminates surfaces at the molecular level eliminating visually undetectable levels of highly corrosive substances, providing a uniform receptive surface prior to coatings application, resulting in greatly enhancing adhesion of protectivecoatings making them more durable, more corrosion resistant and therefore, substantially less likely to require frequent maintenance cycles, in other words; assets last longer and cost less to maintain.

ENTERPRISE PAINTS & COATING SOLUTIONS INC.

6. Floor Coatings & Line Marking Paint

- Single component bio-based UV cured coating for Floors with instant return to service
- Zero VOC, non-flammable, environmentally friendly and currently the only polymeric coating offering the least emission levels of CO₂
- Excellent durability, abrasion and chemical resistance for Industrial & Commercial applications such as Parkades, Warehouses, Airports, Hospitals, Schools, Hotels, Restaurants, Commercial & Residential Building Floors, shopping malls, Food processing plants and storage facilities.
- EPCS is an exclusive Distributor for North America growing into Middle East & Africa

7. Concrete Protection

- EPCS Global have collaborated for distributorship with manufacturer of very unique patented technologies offering lasting solutions for protection of Concrete, Masonry and Asphalt surfaces under extreme conditions.

THANK YOU
