## ► ABOUT US

**We represent** a 15 + years old processor and exporter of various Industrial Minerals like Talc, Calcined Kaolin, Mica, Dolomite, Quartz and Bentonite and Barytes powders.

We prioritize quality and customer satisfaction in serving diverse industries we are among the top 15 Minerals exporters from India.

### **VISION**

Our vision at Max1 Group International is to become a leading preferred source partner in minerals for industries such as Paint, Paper, Rubber, Plastic, Cosmetic, Ceramic etc. We aim to position ourselves among the top global suppliers and Producers of various industrial minerals from India. We aim to achieve this through sustainable, ethical and noble Business practices.

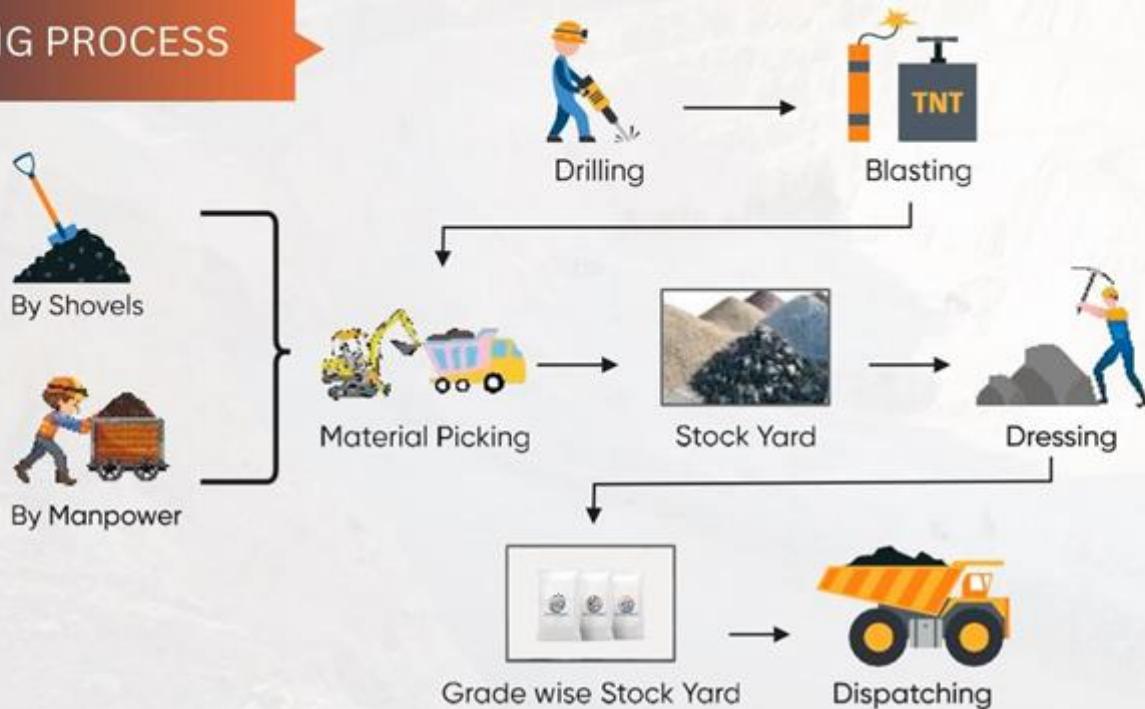

### **MISSION**

Our goal is to be a trusted partner of our customers, prioritizing integrity and delivering the highest quality products and services. We strive to become a one-stop solution for their mineral needs, offering competitive pricing and ensuring timely delivery.

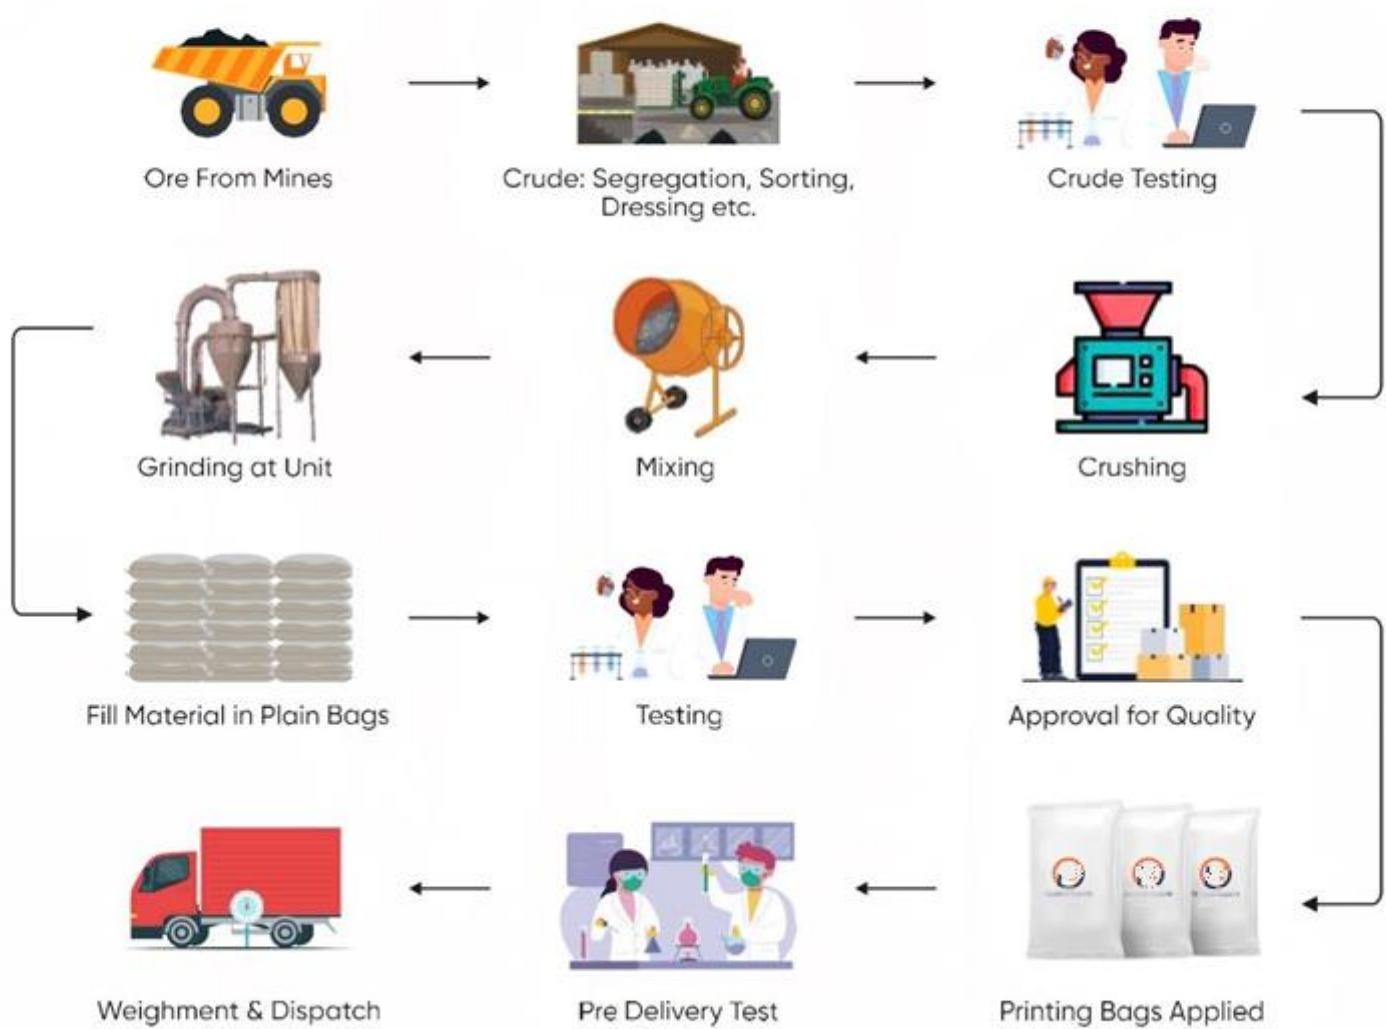

### **WHY SOURCE MINERALS FROM US ?**

- ❖ Commitment: Committed to highest quality of Minerals.
- ❖ Experience: Over 15 years of experience in mining and exporting.
- ❖ Prompt Execution: Timely delivery with ultimate accuracy, we believe in on time all time.
- ❖ Comprehensive Solution: We are known as house of Minerals, one stop for diversified industrial needs.
- ❖ Safety: we believe in zero accident, safe and hygienic working practice throughout operations.

## MINING PROCESS

## PRODUCTION PROCESS

## TALC POWDER

Whiteness	75% to 99%
Fineness	200 Mesh to 10 Micron
User Industry	Plastic, Paints, Cosmetics & Paper

## DOLOMITE (POWDER / GRAINS)

Whiteness	85% to 99%
Fineness (powder)	200 Mesh to 8 Micron
Fineness (Grains)	0.2 to 9 mm
User Industry	Paint, Detergent, Construction & Rubber

## CALCIUM CARBONATE

Whiteness	85% to 99%
Fineness	300 Mesh to 8 Micron
User Industry	Plastic, Paper, Paint & Oil Drilling

## CHINA CLAY

Whiteness	70% to 87%
Fineness	300 Mesh to 10 Micron
User Industry	Plastic, Paper, Rubber & Ceramic

## MICA

Whiteness	65% to 75%
Fineness	Flakes to 325 Mesh
User Industry	Plastic, Paint & Electrode, Oil Drilling

## BARITES POWDER

Whiteness	78% to 96%
Fineness	300 Mesh to 2 Micron
User Industry	Paint & Oil Drilling

## HYDROUS / CALCINED KAOLIN

Whiteness	85% to 98%
Fineness	200 Mesh to 95% below 2 Micron
User Industry	Paint, Paper, Cosmetic & Ceramic

## QUARTZ / SILICA (POWDER / GRAINS)

Whiteness	85% to 99%
Fineness (powder)	200 Mesh to 8 Micron
Fineness (Grains)	0.2 to 9 mm
User Industry	Paint, Glass, Ceramics & Construction

## PRECIPITATED CALCIUM CARBONATE

Whiteness	96% to 100%
Fineness	325 Mesh to 8 Micron
User Industry	Paint, Paper, Detergent Cosmetic

## BENTONITE (POWDER / GRAINS)

Whiteness	Grey
Fineness	0.2 to 200 Micron
User Industry	Oil Drilling, Piling, Construction

## GARNET SAND

Whiteness	Reddish Purple
Fineness	8 to 70 Mesh
User Industry	water treatment , sand blasting
