

Surface Treatment & Primers

ENOXAPRIME

Wide Range of Surface Waterproofing Primers based on 2K epoxy, Bituminous coatings solvent based and waterbased emulsion.

ENOXAREL MRA

Solvent based and Water Based Mould Release agents are specially formulated blend of mineral oils low viscosity hydro carbon carrier, blended with a chemically active release agent and chemicals which helps in easy release of form work and provides an excellent finish to concrete. Can be applied to the formwork by spray in the form of a light uniform coating. Reacts with cement to impart excellent release properties to treated surfaces.
