

EXIT STOPPER

HAS THE EXIT STOPPER DETERRED UNAUTHORISED EXITS?

The residents at the home were continuously leaving the emergency exit doors open, which became a safety and security risk to the residents and staff. After sourcing advice on how to tackle the problem, the local fire officer recommended the Exit Stopper.

Since they were installed, it has proved very successful deterring the residents from misusing the Emergency Exits. It has also given the staff piece of mind especially during the night shift.

Mrs Power – The Island Residential Home

FEATURES

- Completely self-contained electronic door alarm
- Highly visible 'stop sign' discourages unauthorised use of emergency doors
- Fitted with a 9V PP3 alkaline battery (included)
- Key operated override facility
- 32 user programmable features
- Highly versatile can be mounted or installed on almost any type of door, including remote placement of sounder
- Available in red or green
- 40 milliamp 9 VDC trigger output
- Incorporates a 12/24 VDC connection
- Can be installed and protecting doors in minutes
- Lifetime guarantee against breakage of polycarbonate housing (one year on electronic components)
- Virtually indestructible polycarbonate housing
- Remote powered 12 or 24 VDC model available for special applications
- Compact design (136mm/5.35" diameter and 50mm/1.97" deep)

STI EXIT STOPPER

Stop unauthorised exits and entries through emergency exit doors.

The Exit Stopper is a unique and highly effective way to alert you to any unauthorised exits or entries through any emergency exit door. It can also serve as an inexpensive security device and help prevent theft.

HOW IT WORKS

If the protected door is opened, the electronic Exit Stopper emits an ear piercing alarm. When the door is closed, a number of reset options are available including an automatic function. A variety of alarm duration and setup features are available. See feature chart below. A key operated override facility will silence the alarm and allow authorised exits. The Exit Stopper is fitted with a 9V PP3 alkaline battery. It is available in red or green and can be mounted or installed on almost any type of door, including remote placement of the sounder.

MODELS AVAILABLE
