

The Smart way to
Empower Your Fleet

SIMON™ minimizes driver "**Environmental Hypnosis™**" following a commercial auto accident, capturing critical information **fast** and giving you a **strategic advantage** in claims management.

Problem

1. Nuclear Verdicts

Becoming more prominent across the globe.

2. Environmental Hypnosis

Drivers tend to make mistakes during critical events.

3. Unorganized Data

Creates slow processing and aging of claims.

4. Attorneys are ahead of the game

Spending massive amounts to get ahead of claims.

Solution

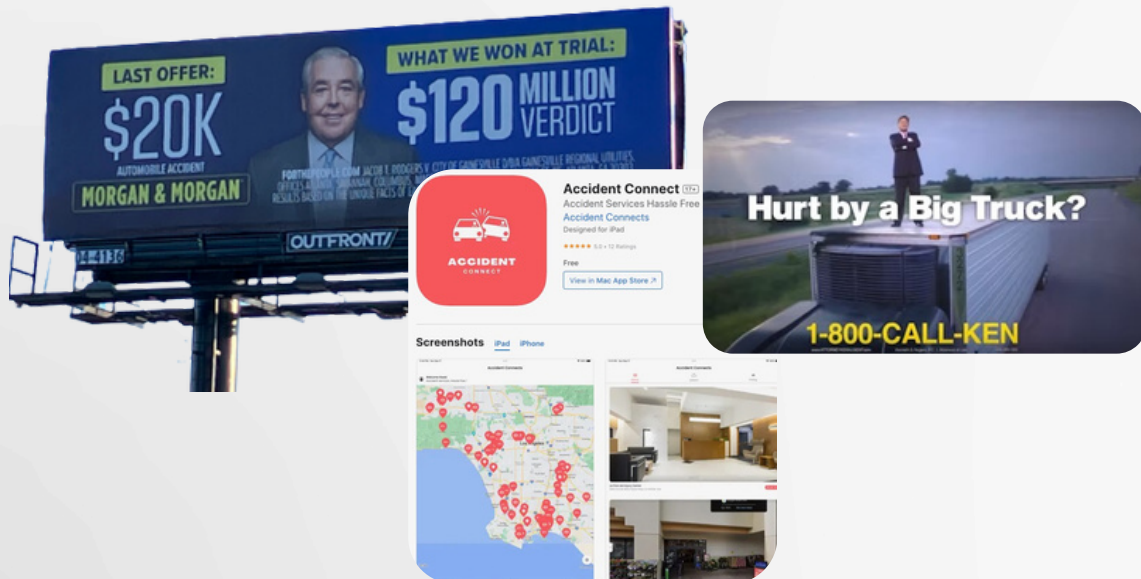

- 1 Empower your drivers
- 2 Streamline Data
- 3 Mitigate Claims
- 4 Simplify Communication

The Smart way to
Empower Your Fleet

GET AHEAD OF THE ATTORNEYS

Attorneys are getting ahead of claims by **leveraging technology, data analysis, and legal strategies.**

The **SIMON™** app allows you to stay in control from the Point of Claim™. Once launched the app will guide the driver through **step-by-step** prompts, gathering all critical information needed to produce real-time reporting through using our three-phase methodology approach.

1 CAPTURE

2 ORGANIZE

3 ANALYZE
