Howdy Pard:

Re: DUSTY-GRAM, August 2020

Yeeep.....we are cancelling our August monthly match
Touloume along with Calaveras County are on the cusp of going backwards; and
we don't want to get caught on Saturday that outdoor groups are shutdown....

The good news is.....Rusty, Sioux City Kid and I attended a RO I refresher
course on Sunday at the Sac County Shooting Facility...Marlin Scofield was our
instructor....

Misty Moonshine and the ROC's updated the Shooter's Handbook, by adding all
the other rules etc that was in the RO I Manual....into the Shooter's Handbook

There are some changes, so if you go the sasswire, you will see posts from Wolf
Brunell, making changes/additions to the rules...

1. Counters are now responsible for counting the shots...along with the misses
and P's / Safety's ...to confirm with the TO...Timer/Operator
2. Caught with the hammer cocked on a rifle at the starting position is NOT an
automatic stage DQ...only if it goes BANG when the trigger is pulled before the
start of the timer

When you open the current RO I manual on the sassnet, you will see large black
stars....they indicate a change.....the RO I manual is in power point format, but
readable and printable

Rust, the Kid and I will be attending the RO II refresher course in late August

keeping yer powder dry is easy now.....just keep the sun off your
head....and....hydrate

Dusty

See you at our next shoot in Jamestown; RSVP please
