

I was born and raised in Richfield. After marrying my best friend Scott, we moved into his childhood home in Bloomington. We have two great, yet very busy teenagers. We enjoy spending time as a family, fishing, swimming and relaxing at our lake home up north. Two of my personal hobbies that go hand in hand is the love of photography and digital scrap booking. I often will bombard my day care parents with many pictures of their children doing various activities throughout our day.
