

NanoSilver Dispersion 10K

Technical Data Sheet:

Appearance: Light brown transparent liquid with low viscosity.

Ingredients: Concentrated Colloidal Silver Solution (10000ppm of silver USP grade).
Contains nanoparticles.

- No Formaldehyde
- No Parabens
- No Phenols
- No Quaternary Ammonium Compounds
- No scent

Usage Guidelines: This is a concentrated solution. It should be added to the products in DILUTED form according to the desired effect.

Because of different national regulations for preservatives and antimicrobials, used in cosmetics, home care and industry, the local registration and formulation rules should be applied.

Solubility: Highly soluble in water and alcohol.

Shelf life: 3 years, properly stored. Protect from the direct sunlight.
