# ABOUT US

## Our Mission

Women Working with Women Empowerment (4WE) is a 501.(c)(3) non-profit organization promoting diversity and equity by providing opportunities to develop and cultivate the personal and professional skills of women who have been historically excluded or underserved. This requires a comprehensive approach to providing resources that address a woman's mental and physical well-being. Women are assisted in all facets of their lives including becoming better parents; building self-esteem, becoming self-sufficient; becoming healthier, becoming more marketable in their chosen careers, and becoming business owners; through leadership, education, and networking.

## Our Vision

The vision of Women Working with Women Empowerment is to empower women that have been historically excluded or underserved to maintain a forward motion by helping them understand their capabilities and teaching them to build self-confidence while providing emotional and spiritual support and developing strategic partnerships with existing organizations. We envision a safe space where women are empowered, uplifted, and encouraged to help one another evolve.
