

# Almost Heaven Bark & Board

*Welcome to Almost Heaven Bark & Board! We are excited you have trusted our facility with your best friend and furry family member. Each day, we strive to ensure our guests receive the best care through socialization, medication management, health monitoring, and comfortable accommodations.*

## ***Vaccinations, Flea & Tick, and Deworming Requirements***

*Before your dog(s) may join the pack, we ask that you provide proof of vaccinations including Bordetella, Rabies, and DAPP/DHPP. Flea and tick and deworming treatments must also be administered before being approved to board. Veterinary records showing receipt of the vaccinations must be submitted prior to boarding and may be brought to the Bark & Board on the day of boarding. Dogs that do not have proof of these vaccinations will, unfortunately, need to return once these vaccinations have been obtained.*

## ***Socialization & Behavior***

*There are risks associated with socialized boarding/daycare. Our experience allows us to assess your dog's behavior and place him/her in the best group for their demeanor and comfort level. Placing dogs in the best pack is determined based on age, personality, energy level, etc. Each pack plays together and explores the property. Please be mindful that scratches, bumps, and occasional sprain does happen. However, we will provide a high level of oversight to mitigate injuries at all times. It is expected that your dog(s) will be tired after staying with us due to daily exercise and play. Dog(s) that are not exercised regularly may be stiff and sore after their stay. These symptoms are normal and should resolve within a day or two and expedited with regular walks and exercise. Should any issues arise, we will assess them to determine if veterinary care is required, and all injuries requiring veterinary attention will be referred to the veterinary you identify in the following form. Please note, the Bark & Board is not responsible for paying veterinary bills. Should any health issue arise that needs immediate veterinary care, we will immediately contact you and organize transportation to the vet you included in this form.*

*To preserve the harmony of our pack and the freedom they have at our facility, we must be selective about the dogs we accept. We ask that you be forthcoming with any aggression, social, or confinement anxiety. Aggressive dogs that do not express aggression towards people are welcome at the Bark & Board and will be exercised and invigorated outside of the pack. Visits are required for all dogs prior to their 1<sup>st</sup> stay. Referrals for training services may be provided upon request.*

## ***Hours of Operation & Transportation***

*Hours of operation are 8:00 AM to 6:00 PM. If you are unable to pick up or drop off your dog by 6:00 PM you may pickup your dog the following day, and an additional day charge will be applied to your account. Reservations must be canceled at least 48 hours prior to ensure all interested guests are accommodated. Bark & Board has a waiting list, and we ask that you please call or text us punctually to keep us apprised of changes to your drop off or pickup time. No call, no show clients will be charged for the entirety of their dates reserved. Local Lewisburg transport fees are \$15/trip (\$30 RT). Please do not feed within two hours of transport, and please walk your dog 15 minutes prior to pickup time to prevent accidents in our vehicles. Long distance transport is available at \$1.50/mile for one dog and 30% of total mileage per additional dog. Mileage costs are incurred from time of pick up to their destination. We ask that you be forthcoming with any motion sickness or travel anxieties.*
