

RE/MAX ADVANTAGE

Official Relocation and Referral Partner:

eBrokerMatch.com

70% of all clients referred *directly* from one REALTOR® to another **do not** buy or sell a home with the REALTOR® they were referred to. Why? Because of a lack of **follow-up** and **communication** between the two brokers.

That will not happen when **eBrokerMatch.com** places your referral. During the referral process, **eBrokerMatch.com** will periodically follow up with **both** the referred agent *and* your client to ensure client satisfaction. If your client is not happy we will do everything possible to correct the situation and **protect your referral fee**, even if that means finding a different REALTOR® to work with your client.

eBrokerMatch.com will handle all the details, finding brokers to serve your client outside of your own local area. Because we are an independent referral service and we are not affiliated with any specific Real Estate Company or Franchise, we can do the research and interview one or multiple Realtors for you to interview and decide who might be the best fit for your client. If you are affiliated with a specific franchise and prefer to stay within your company trademark, we can research and locate the best REALTOR® matches **within your organization** as well.
