MONTESSORI PRINCIPLES AND PHILOSOPHY

Component Hours: 32 contact hours, 100 hours Independent Study, 3-unit equivalent

This course looks into Maria Montessori's life and the birth of her Method in the early 1900s. It reflects on the growth of the Montessori Movement over the years and the influence that world events had on the system. This course explores the key elements of the Montessori philosophy, absorbent mind, sensitive periods, mathematical mind, spiritual and moral development of the child, etc., through readings, lectures, discussions, assignments, and evaluations. It examines how the Montessori principles, materials, teacher, and environment relate to and respect the developing child from birth through 6 years.

CHILD DEVELOPMENT, CHILD, FAMILY, AND COMMUNITY

32 contact hours, 100 hours Independent Study, 3-unit equivalent

This course focuses on the development patterns of children. It looks at philosophies and pedagogies of past and current theorists, emphasizing children's intellectual and emotional development during the first six years of life. It covers current trends in family dynamics and local community resources.

This course looks at the interactions among children, family, school, peers, media, and community, emphasizing ethnic diversity, social class, gender roles, and their impact on behavior, values, morals, and attitudes. It covers current trends in family dynamics and local community resources.

EARLY CHILDHOOD OBSERVATION

30 contact hours, 50 hours Independent Study, 3-unit equivalent

This course component provides a framework for observation and reflection that promotes connections between theory and practice. The Observation component will help develop skills using direct observation as a primary tool for studying children and as an aid in developing teaching strategies tailored to individual needs and classroom dynamics. This course component requires an independent study of a minimum of three 3-hour observations before the Internship begins. Six (6) additional 3-hour observations are completed during the Internship program. Additional hours are spent on observation of individual children. Observation techniques will be studied during the contact hours. Observation reports provide students with the preparation and practice for accurate, objective observation of children.

PRACTICAL LIFE

32 contact hours, 20 hours Independent Study, 3-unit equivalent

Young children entering a Montessori classroom first experience the familiar materials of the Practical Life area. The exercises have objects typically encountered in everyday living experiences such as cleaning, pouring, dressing, and polishing. Children need to master these fundamental exercises to live comfortably in the real adult world. This course presents the philosophy and rationale of the Practical Life area. It provides guidelines on the lessons presented and grouped in five major categories: care of the self, care of the environment, grace and courtesy, control of movement, and food preparation. These activities help the child develop coordination, concentration, personal independence, and a sense of order.

SENSORIAL

32 contact hours, 20 hours Independent Study, 3-unit equivalent

The Sensorial area consists of materials that educate and refine the children's senses. The child learns to recognize similarities and differences, discriminate between similar objects, grade similar objects. This is essential for later mastery of tasks involving math and language. The primary purpose of the Sensorial exercises is not to master their correct usage, but rather that "the child train himself to observe; that he be led to make comparisons between objects, to form judgments, to reason and to decide." (Dr. Maria Montessori - Dr. Montessori's Own Handbook).

The Sensorial materials are designed to simplify learning and awareness of the environment by isolating the difficulty or quality to be discriminated, isolating the senses, encouraging mastery through repetition, possessing self-correction, and presenting an attractive appearance to the child. Children develop the organization and patterning skills that are inherent in math and language concepts. This course includes the philosophy and rationale of the Sensorial area and the presentation of the Sensorial materials aiding the development and refinement of the senses.

EARLY CHILDHOOD MATHEMATICS

32 contact hours, 20 hours Independent Study, 3-unit equivalent

Montessori believed that a child's mind was mathematical and based on the order and perceptual awareness found in the development of the senses. The acquisition of mathematical principles develops logically from concrete to abstract and simple to complex. The child who has mastered the basic concepts involved with the Practical Life and Sensorial materials progresses naturally to Math activities. This course covers the philosophy and rationale of the Montessori math curriculum and the presentation of the Montessori math materials that aid in the development of mathematical concepts and skills: the introduction to numbers, counting, the decimal system, the four basic operations of the decimal system, memorization of facts, and fractions.

EARLY CHILDHOOD LANGUAGE

32 contact hours, 20 hours Independent Study, 3-unit equivalent

Language development is of prime importance in the early childhood years. The Language course covers the philosophy and rationale of the Language area and its materials. Major topics covered are the materials and exercises that foster receptive and expressive language experiences, visual and auditory perceptual experiences, vocabulary development and enrichment, reading and writing development, grammar, poetry, creative writing.

LIFE AND PHYSICAL SCIENCE

16 contact hours, 20 hours Independent Study, 1-unit equivalent

Montessori's theory of the interrelated curriculum joins biology, history, science, and geography as holistic Cosmic Education. This course explores activities that focus on the characteristics, parts, and classification of plants and animals and demonstrates simple science experiments that children can do independently. Students will become familiar with the Montessori presentations in these subject areas related to contemporary educational thought.

SOCIAL STUDIES

16 contact hours, 20 hours Independent Study, 1-unit equivalent

This course explores history through Montessori presentations of the concept of time, seasons, and timelines. Adult learners explore geography by studying globes, landforms, puzzle maps, flags, and earth formation.

ART, MUSIC, MOVEMENT

12 contact hours, 20 hours Independent Study, 1-unit equivalent

This course explores history through Montessori presentations of the concept of time, seasons, and timelines. Adult learners explore geography by studying globes, landforms, puzzle maps, flags, and earth formation.

CLASSROOM LEADERSHIP

34 contact hours, 20 hours Independent Study, 3-unit equivalent

This course starts by looking at the characteristics of the prepared environment, how they affect classroom dynamics, and the role the environment plays in the children's behavior. Classroom Leadership is a vital component of the smooth workings of a classroom. It covers strategies and techniques in communication with children and adults, leading to a climate of cooperation, attention, and trust that help develop respect in the community. Additional lessons cover theories of discipline and individual techniques, lesson planning, record-keeping, parent involvement, and administration of schools.

EARLY CHILDHOOD PRACTICUM

A minimum of 540 contact hours, 60 hours Independent Study, 6-unit equivalent

The purpose of the practicum phase is to provide the adult learner with an opportunity for personal and practical experiences in a Montessori environment with children ages 2½ through 6 years. It provides a period of observation, internalization, and further study to bring together the theory and practice of Montessori education. This course gives the adult learner time to practice the curriculum lessons, develop new materials, and learn to manage the daily routines that respond to the developmental needs and interests of the children. It is the adult learner's responsibility to secure a practicum placement. The site must be a Montessori school that the Montessori Teacher Academy approves and that agrees to support the program's practicum standards.

ATTENDANCE

State Law requires that we keep attendance. Due to the intensive nature of the course, regular attendance is essential. Absences must be justified. The Academy strongly advises that the adult learner makes every effort to have a perfect attendance record. Students are allowed one excused absence during Course II. Attendance at all workshops is mandatory. Please be advised that each seminar happens once a year; a missed workshop will have to be completed before the certification process starts. A maximum of two absences in theory lectures is allowed.

The class will start promptly. Repeated tardiness will be counted as absences. Absences exceeding the above guidelines are cause for dismissal from the course.

MAKE-UP WORK

Adult learners are responsible for attending and completing all the course hours. The Academy keeps records of the absences. It is the responsibility of the adult learner to make arrangements with the instructor to complete missed work.

If an adult learner misses more than 10% of a course component due to absences or tardiness, she will meet with the Director to design an academic plan to make up missed content and hours.

DISMISSAL/PROBATION/GRIEVANCE POLICY/STUDENT RIGHTS

It is the policy of the training program to assist adult learners having difficulties whenever possible. However, there may be times when an individual elects not to follow the principles of

the program. If an adult learner has ongoing unresolved problems, the Academy Director communicates with the individual, notifying them of the problem and a time limit for remediation. Failure to satisfactorily comply by the adult learner may be grounds for dismissal.

If an adult learner does not comply with the agreed directions during the time allotted, they will withdraw from the program.

Grounds for **dismissal** include:

- Excess of 10% of unexcused absences.
- Failure to complete assigned projects and assignments when due.

The committee consists of the Director, a staff member, an adult learner representative, and a practicum site administrator.

When an adult learner complains in writing, the Academy will provide the student with a written response within ten days of receiving the complaint.

CANCELLATION OF AGREEMENT

You have the right to cancel the enrollment agreement and obtain a refund of charges paid through attendance at the first class-session, or the seventh day after enrollment, whichever is later.

Cancellation shall occur when you give a written notice of cancellation at the address of the school shown on the top of the front page of this agreement. You can do this by mail, hand delivery, or telegram. The written notice of cancellation, if sent by mail, is effective when deposited in the mail property addressed with postage prepaid.

The written notice of cancellation need not to take a particular form and, however expressed, it is effective if it shows that you no longer wish to be bound by this Agreement. You will be given two notices of cancellation forms to use at the first day of class, but you can use any written notice that you wish.

If the school has given you any equipment, including books or other materials, you shall return it to the school within ten days following the date of your notice of cancellation. If you fail to return this equipment, including books, or other materials, in good condition within the 10-day period, the school may deduct its documented cost for the equipment from any refund that may be due to you. Once you pay for the equipment, it is yours to keep without further obligation.

If you cancel this agreement, the School will refund any money that you paid, less any deduction for equipment not timely returned in good condition, within 45 days after your notice of cancellation is received.

WITHDRAWAL FROM COURSE

You have the right to withdraw from a course of instruction at any time. If you withdraw from the course of instruction after the period allowed for cancellation of the Agreement, the School will remit a refund less a registration fee, if applicable, not to exceed \$250 within 45 days following your withdrawal. You are obligated to pay only for educational services rendered and

for unreasoned equipment. The refund shall be the amount you paid for instruction multiplied by a fraction, the numerator of which is the number of hours of instruction which you have not received but for which you have paid, and the denominator of which is the total number of hours of instruction for which you have paid. If you obtain equipment, as specified in the Agreement as a separate charge, and return it in good condition within 10 days following the date of your withdrawal, the School shall refund the charge of the equipment paid by you. If you fail to return the equipment in good condition, allowing for reasonable wear and tear, within this 10-day period, the School may offset against the refund the documented cost to the School of that equipment. You shall be liable for the amount, if any, by which the documented cost for equipment exceeds the prorated refund amount. The documented cost of the equipment may be less than the amount charged and the amount the School has charged in the contract. In any event, you will never be charged for more than the equipment charges stated in the contract. For a list of this charges, see the list at the front of this page. IF THE AMOUNT THAT YOU HAVE PAID IS MORE THAN THE AMOUNT THAT YOU OWE FOR THE TIME YOU ATTENDED, THEN A REFUND WILL BE MADE WITHIN 45 DAYS OF WITHDRAWAL. IF THE AMOUNT THAT YOU OWE IS MORE THAN THE AMOUNT THAT YOU HAVE ALREADY PAID, THEN YOU WILL HAVE TO MAKE ARRANGEMENTS TO PAY IT.

REFUND TABLE

This course consists of 300 instructional hours. The student pays \$5,100 for tuition, \$250 for registration, and \$300 documented cost to the school, for equipment as specified in the enrollment agreement. If the student withdraws after completing 100 hours without returning the equipment they obtained, the pro rata refund to the student would be \$3,400 based on the calculation stated below:

$$\begin{array}{l} \$5,100 \\ \text{Amount paid} \\ \text{for tuition} \end{array} \times \frac{200 \text{ hours of instruction paid but not received}}{300 \text{ clock hours of instruction for which student has paid}} = \begin{array}{l} \$3,400 \\ \text{refund} \end{array}$$

If the student returns the equipment in good condition, allowing for reasonable wear and tear, the actual refund to the student would be \$3,650 (3,350 + 300).

The refund a student would be entitled if the student withdrew from the course after completing a period of days or weeks equivalent to the following percentages is:

Percentage of hours completed	10 %	25 %	50 %	60 %	75 %
Refund	\$4,590	\$3,825	\$2,550	\$ 2,040	\$1,275

For the purpose of determining the amount you owe for the time you attended, you shall be deemed to have withdrawn from the course when any of the following occurs:

- You notify the school of your withdrawal or the actual date of withdrawal.
- The school terminates your enrollment.
- You fail to attend classes for a three-week period. In this case, the date of withdrawal shall be deemed to be the last date of recorded attendance.
- You fail to submit three consecutive lessons within 60 days of its due date.

STUDENT TUITION RECOVERY FUND

“The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.”

“It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school.

Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market Blvd., Suite 225, Sacramento, CA 95834, (916) 574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.”
