Traffic Patterns

We ask that parent partners please take a few minutes to review safe traffic patterns for drop off and pick up. Please **DO NOT** park on Grace Street to walk children in nor let them walk from Grace on their own. This causes delays in drop off/pick up for other parents and compromises safety of all of our students. If you would like to walk your student to the door, please park in the Olive Street parking lot (across from the church) and walk your students to and from the school door.

Please also be mindful to have your car signs visible until your child is in the car during dismissal. If you need a second car sign, please call the office and one will be provided for you. We appreciate our parent partners helping to make this process as quick and safe as possible for our students and staff.
