Your Secure Identity

Meeting proof of identity requirements for initial applications

The Department of Transport (DoT) is committed to safeguarding your identity through secure information management and personal identification systems.

In addition to their intended purpose, learner's permit and driver's licence cards are widely accepted as a form of identification and can be used to obtain passports, credit cards and bank loans. It is therefore important that DoT secures the identities of its card holders and maintains the authenticity of customer's images and personal details in our database.

DoT uses a biometric facial recognition system to protect identities, improve the security and integrity of licence and Photo Cards and help detect potential identity fraud. The facial recognition system makes it difficult for people to obtain a fraudulent Western Australian (WA) driver's licence or Photo Card and prevents people from holding more than one licence card.

Proof of identity for your initial application

To uphold DoT's commitment of secure identities for the WA community, you must supply a number of documents as proof of your identity when first applying for a driver's licence or Photo Card.

A combination of five original documents must be presented to verify your full name, date of birth and current residential address*. To assist you, there are two options for the combination of documents you must provide:
