

Almost any name on this list can be found in the area of a Clan Chief other than The Macduff. However, most of them are primarily found in Macduff territory and rightfully belong to Macduff alone. Some Clans do not have a society. Some names have a society but no Clan or Chief. When an applicant has a choice between Macduff and another, they may choose Macduff because of the inactivity of the "other" in their area or because MacDuff is the first registered Clan of Scottish Parliament in the 1300s.

To these we say "welcome!"
Let tradition and conscience
be your guide.
