LIMITEX ROTARY TYPE

LIMITEX POSITION TYPE

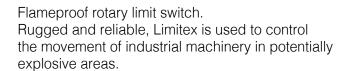

FULL BODY STAINELESS STEEL

LIMITEX

Rotary limit switch

- Accurate adjustment of cams by means of screws.
- Positive opening NC contacts for safety functions.
- Mechanical life of switches: 1 million operations.
- Protection degree: IP66.
- Ambient temperature range: -40°C to +60°C.
- External enclosure made of G20 cast iron, stainless steel transmission and gear driving shafts, selflubricating technopolymer gears and driving bushes.
- All materials and components used are wear resistant
- Full Body Stainless Steel Version Available

GENERAL SAFETY SPECIFICATIONS

Maximum power supply300 VacMaximum current intensity3 AMaximum dissipated power2 WattRated frequency50 / 60 Hz

GENERAL TECHNICAL SPECIFICATIONS

Maximum rotation speed 800 rev./min.

Cable entry Nr. 1 M20x1,5 - Nr. 1 M25x1,5 - Nr. 1 ½ NPT

(cable glands not supplied)

Revolution ratios from 1:15 to 1:1578, achieved by combining different secondary output sta ges.

- Snap action switches with 1NO+1NC change-over contacts.
- It can be equipped with a cam set with 2-3-4 switches.
- Available with flange for direct coupling to the transmission unit.

Conformity to Atex Standards

EN 60079-0 Explosive atmospheres - Equipment - General requirements

EN 60079-1 Explosive atmospheres - Equipment protection by flameproof enclosures 'd' EN 60079-31 Explosive atmospheres - Equipment dust ignition protection by enclosure "t"

Conformity to IECEx Standards

OVERALL DIMENSIONS (mm)

LIMITEX

Cross position limit switch

Flameproof position limit switch.
Rugged and reliable, Limitex is designed to control the movement of overhead travelling cranes, hoists and complex machine tools operating in potentially explosive areas.

- Positive opening NC contacts for safety functions.
- Mechanical life of switches: 1 million operations.
- Operation frequency: 3600 operations/hour max.
- Protection degree: IP66.
- Ambient temperature range: -40°C to +60°C.
- It features rugged external enclosure made of G20 cast iron and cross rod support made of zinc alloy. Internal components are made of materials which guarantee long mechanical life and continuous performance
- Full Body Stainless Steel Version Available

GENERAL SAFETY SPECIFICATIONS

PTIONS

- 2 or 4 snap action switches with 1NO+1NC change-over contacts.
- Cross rods move to 3 or 4 maintained positions, with movement every 90°.
- Modular adapter with fixing points.

Electromechanical control circuit devices

EN 60529 Degrees of protection provided by enclosures

Utilisation category	AC 15	
Rated operational current	3 A	
Rated operational voltage	250 Vac	
Rated thermal current	10 A	
Rated insulation voltage	300 Vac	
Mechanical life	1x10° operations	
Connections	Screw-type terminals	
Wires	1x2.5 mm², 2x1.5 mm² (UL - (c)UL: use 60°C or 75°C copper (CU) conductor and wire 16-18 AWG)	
Tightening torque	0.8 Nm	
Microswitch type	Double break, snap actions	
Contacts	1 NO+1NC (All NC contacts are of the positive opening operation type)	
Scheme	13 21	
Weight (Kg)	4,5	

MAXIMUM ACTUATING DIMENSION

T-type rod - Cross rod with 3 maintained positions

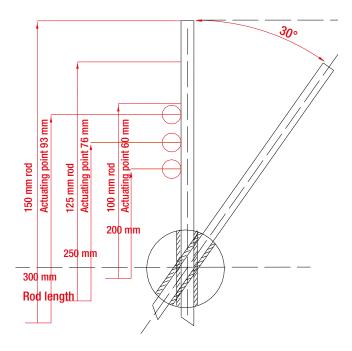

- Pre-travel angle for rotation contact operation: 70°-49°
- Maximum rotation angle for each maintained position: 90°
- Average angle for the mechanical tripping: 48°

Rod - Rod and Roller

- Pre-travel angle for rotation contact operation: 24°
- Maximum rotation angle: 65°

Rod - Rod and Roller

- Pre-travel angle for rotation contact operation: 49°
- Maximum rotation angle for each maintained position: 90°
- Average angle for the mechanical tripping: 48°
- Maintained positions each: 90°

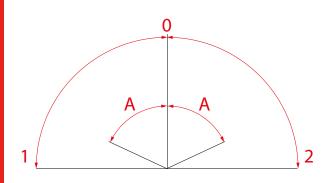

In order to ensure proper operations, the dimensions shall not be increased; anyhow, they can be decreased, taking into account that the closer the impact point is to the center of the head, the higher the impact and the mechanical wear of rod and shaft are.

IMPORTANT: the maximum impact speed is 1.35 m/s, refering to the ideal impact points showed in the drawing.

Rated operational current	16 A at 250 Vac
Rated operational voltage	500 Vac
Rated thermal current	10 A
Rated insulation voltage	300 Vac
Mechanical life	10x10 ⁶ operations
Connections	Screw-type terminals
Wires	1x2.5 mm², 2x1.5 mm²
Microswitch type	Snap actions
Contacts	4 Microswitches 1NO+1NC
Scheme	

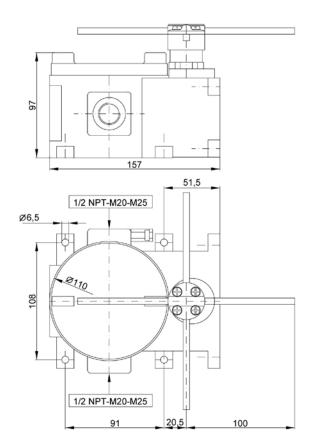

OPERATION ANGLES

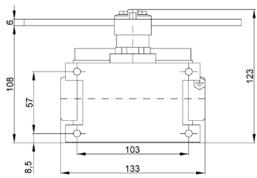

- O Reset position
- A Microswitch working angle: 65°
- 1 Maximum left handed operation: 90°
- 2 Maximum right handed operation: 90°

The end of round of the "cross bar" limit switches have no limit stop (i.e. they can rotate around 360°).
