“Learn Tomorrow’s Technology Today with Artificial Intelligence”

Send investment payment to the address above in Kirkland and we will process it and send you your stock certificate.

AI Online Developer Plus Inc. (referred to from hereon in as the Company) was established as an S Corporation with the expectation of rapid expansion in the technical online training industry. The Company solicits financial backing to be able to introduce its new service (described below). Website **aiondevplus.com**.

Development of Operating Programs

We plan to try to get 3 different types of surgeries per year done in 2026 and 2027:

2026 Surgeries

Cancer

Heart

Orthopedic

2027 Surgeries

Neurosurgery

Ophthalmology

Gastrointestinal

Total Price Program

The hospital prices will be set by the package they buy from us. Each major surgery will be priced on its own and with a full package. Custom packages for hospitals will be available. This deal gives the hospital the rights to use the software for one year for all the procedures purchased. There will be a subscription fee for all the Vision Pro software. Doctors will still be able to use the software to detect cancer early and to practice the surgery procedures with the glasses until the FDA approval in the US. See proforma for yearly income and number of projected hospitals we will plan to sell to. We will try to get a partnership with St Jude hospital for providing them the software for free to get more information on children's cancer to better update the software. The software will take 6 months to code so it will be ready for 2026 to sell. The sales person will do presales in 2025 to international hospitals in 2025. We have 5 companies that can help us get the Vision Pro approved by the FDA and we will work with Apple Computer Company to get this done. We will also work to get a discount on the Vision Pro glasses in a volume purchase information included with their contact information. The glasses will be getting a new computer chip this year.

We will setup pretrial FDA programs in 2026 in several hospitals to get a jump to getting to the final stage. AI Online Developer + will hire an FDA expert to manage all trials and to get us certified as soon as possible. Most of our business will be overseas so we will need to get the setup material and trainer available to the hospitals. The Vision Pro can also teach the doctors to go through the surgery on its own without a patient.

Sales for All Three Projects	2026			2027	
Cancer, Orthopedics and Heart					
2026 Sales for Hospitals	Sales for year			Sales for year	
International Sales	\$8,400,000.00			\$14,000,000.00	
United States Sales	\$5,600,000.00			\$20,250,000.00	
Presales Cost for package	\$9,000,000.00			\$15,000,000.00	
					Total Sales for 2027
Total Sales for 2026	\$23,000,000.00			\$49,250,000.00	\$91,250,000.00
Presales for AI Package for next year					
		Per Person		Per Person	
License for Cancer	\$28,000.00	300		500	
License for Heart	\$45,000.00	200		450	
License for Orthopedic	\$30,000.00	300		500	
				Per Person	Sales for year

					\$42,000,000.00

Mark Kembel: A Visionary Leader in AI Medical Healthcare

Mark Kembel is a pioneering entrepreneur and seasoned technology expert whose career bridges the worlds of artificial intelligence and AI Medical Healthcare. With a passion for innovation and a dedication to democratizing complex technologies, Mark has built a reputation as a forward-thinking leader driving real-world impact in the AI spaces.

Today, Mark is the founder and CEO of **AI Online Developer Plus, Inc.**, a cutting-edge platform offering practical, industry-relevant training in artificial intelligence, data science, and software development as well as leading a technology consulting firm that is a leader in Medical AI. The company provides a diverse portfolio of AI Healthcare plans to develop Vision Pro designed operation programs for the physicians to do their operations with precision work.

With a career rooted in innovation, Mark Kembel continues to inspire a new generation of learners and technologists, proving that with the right guidance, anyone can harness the power of AI. Visit <https://aiondevplus.com/> to get more information on Mark's AI Programs.

AI Online Developer + Professional Artificial Intelligence Packages

Business Mission

To supply hospitals with Vision Pro glasses for doing operations with precision in the following areas. Cancer, Orthopedics, Heart, Neurosurgery, Ophthalmology and Gastrointestinal. Our focus on getting doctors the best support to doing these surgeries.

The mission will be complete once the 6 operations are done and in use. We plan to make the physician's job easier by using the glasses to display the different signs for monitoring the progress of the surgery.

Funding Request Option

The Company will sell 100,000 Preferred non-voting stock for \$100.00 per share, a total of \$10,000,000.00, to be used for the following purposes listed in the marketing section. There is no limit to how many shares one person can buy. The company reserves the right to purchase stock first before outsiders buy the stock. The company also gets the right to transfer stock to its books if the stockholder wishes to sell. If the stockholder dies the transfer of stock will go to the beneficiaries. The stock must be held for at least two years. All stock to be purchased in U.S. dollars from foreign investors. Minimum investment \$2,500.00 or 250 preferred shares. The Mark Kembel, CEO has just been awarded 250,000 shares of Common stock bring his shares to 1,000,000 Common Voting shares. Common shares unissued are 2,000,000. Number of Common shares created are 3,000,000. The company created 1,000,000 Preferred non-voting stock share total.

To get financial projections for sales just email us. But here's the more exhilarating part: I invite you to be part of our journey. We're opening an opportunity for \$10 Million in funding. These funds will be meticulously allocated to amplify our outreach (advertising), hire an elite sales force, and onboard a seasoned Marketing Manager who'd helm the ship with their expertise and vision. Other financing avenues are also on the table, and we're flexible in discussions.

Business Description

The Company was formed On 04/15/2019 as S Corporation under state laws and headed by Mark Kembel. We became a **C Corporation** on 01/07/2021 with the IRS. Mark worked six years at Microsoft as a Software Test Engineer and Test Lead and Seven years as the CEO of interTest.com Inc., a technical training company. Over six years CEO of Online Developer + Inc. Performed marketing, sales, and management in both training companies. AI Online Developer + is an online training platform that provides courses for both technical and non-technical people.

Company Structure

AI Engineering Courses – To deliver online Artificial Intelligence training

AI Consulting – Provide development services from our development partners to corporations.

AI Medical – Provide medical material and service to give help in recruiting medical partners.

A.I. Medical – Cancer Research

I'm developing a groundbreaking AI-powered software integrated with augmented reality (AR) glasses to transform cancer detection and surgical procedures. This innovative technology enables real-time identification of cancerous tissues, assisting surgeons during operations and reducing reliance on external monitors. By overlaying critical imaging data directly into the surgeon's field of view, it enhances precision and efficiency in the operating room. Our AI system is designed to analyze various medical imaging modalities, including CT scans, MRIs, and X-rays, to detect multiple cancer types such as breast, lung, prostate, colorectal, pancreatic, skin (including basal cell carcinoma, squamous cell carcinoma, and melanoma), and brain cancers. This aligns with current advancements where AI assists radiologists in detecting anomalies and interpreting imaging data, ultimately improving patient care.

A.I. will not replace you, someone using A.I. will.

AI Online Developer + is an online training platform that provides courses in various fields, including data science. Online training platforms like AI Online Developer + have become increasingly popular in recent years due to their flexibility, accessibility, and affordability. Students can learn at their own pace and on their own schedule, without having to attend a physical classroom or adhere to a rigid curriculum. The purpose of a stock offering for an online training platform like AI Online Developer + could be to raise funds for expansion or to invest in new technology and resources to enhance the quality of their courses. This could include hiring more experienced instructors, developing new and relevant course content, improving the platform's user interface, or expanding their reach to new markets.

Risk for company

As a startup AI software company, there are some risks that could impact the success of your business. One major risk is the fast-paced nature of industry and the constant change in the course materials. We will maintain a partnership with development companies to update course materials.

Change in medical research and competitors' beating our clients with the final product. New partners will keep us updated in technology. We are always searching for new partners.

One of our consultants is Lisa Moon, PhD, RN, LHIT, CCM. She owns 2 medical business and will help us hire the nurses needed to sell to hospitals. Also, she will provide medical information that we can use for the development and training of Vision Pro's capabilities.

Sales Staff

The Sales staff will be specialized in their area of knowledge:

The General Manager will be a Vice President of the company and will run the day-to-day business.

We will hire two **Nurses with Vision Pro training** to call on hospitals, to get the decision maker, train the staff and to sell our technology. Critical position that will need training and to get experience. They must learn hospital LAN networks or their WI -Fi to load the software for Vision Pro and the surgery selected. We will publish a user manual so the Nurses can be on the phone for support. They will make sure that the nurse that have to wear the glasses in surgery have all the information needed. If need be, we can fly a nurse to the hospital for support.

We will hire an executive assistant to help with calling and finding help as well as other functions that the CEO and Sales Manager have.

We will hire a Marketing and Sales representative to setup the advertising for the company over the internet and other media. At this time, we need to wait to see what media they are recommending to advertise in.

Specialty	Example Surgeries	Global Market Value (Est.)	Vision Pro Benefit	Notes
Neurosurgery	Brain tumor removal, spinal fusion, aneurysm repair	\$60B+	★★★★★	High precision needed; AR brain mapping could become standard
Vascular Surgery	Aneurysm repair, carotid endarterectomy, stenting	\$40B+	★★★★★	Blood vessel mapping overlays critical; reduces surgical time
Ophthalmology	Retinal surgery, cataract removal, corneal grafts	\$75B+	★★★★	Microsurgery enhanced with stabilized AR view
Urology	Kidney tumor resection, prostatectomy	\$40B+	★★★★	Precise tumor localization and nerve preservation
Gastrointestinal Surgery	Liver resection, pancreatic tumor removal, bariatrics	\$60B+	★★★★	Overlays of critical structures reduce surgical complications
ENT (Otolaryngology)	Sinus surgery, cochlear implants, throat tumor removal	\$30B+	★★★★	Complex anatomy benefits from AI-assisted navigation
