# Marketing & Sales

I just got off the phone with a salesperson selling a contact's database . He showed me some cool features like who hits my website and all their contact information and who is looking for training from Google. They have all the college information and people in all industries that I want to reach. They use AI in the process of doing business. Their automation would take care of that. I was impressed by their system.

We will also do an SEO on the website to increase hits and business.  This may happen by the end of August 2025.  This will increase both our AI Course Sales and AI Consulting Business.  We signed up several AI development companies to handle our consulting division.

**Sources for us to market our courses:**

| Podcasts | Magazine Articles | Sales Navigator |
| Email Decision Makers | Image Ads | Hospitals |
| Contacting Colleges | ZoomInfo | Cancer Centers |
| Contacting Corporations | Press Releases | Consultants |

## AIOnDev+

## Vision Pro Summary

**Research Summary**

I'm developing a groundbreaking AI-powered software integrated with augmented reality (AV) glasses to transform cancer detection and surgical procedures. This innovative technology enables real-time identification of cancerous tissues, assisting surgeons during operations and reducing reliance on external monitors. By overlaying critical imaging data directly into the surgeon's field of view, it enhances precision and efficiency in the operating room.

**Applications in Cancer Surgery**

**Applications in Orthopedic Surgery**

**Apple Vision Pro in Heart Surgeries**

Our AI system is designed to analyze various medical imaging modalities, including CT scans, MRIs, and X-rays, to detect multiple cancer types such as breast, lung, prostate, colorectal, pancreatic, skin (including basal cell carcinoma, squamous cell carcinoma, and melanoma), and brain cancers.

All these surgeries listed in the middle of the page are on our list for developing a program for using Vision Pro in surgeries.

Ask for our file **"Vision Pro Research Confidential"** for detailed information. Email the following: markkembel@gmail.com
