# Marketing & Sales

I just got off the phone with a salesperson selling a contact's database . He showed me some cool features like who hits my website and all their contact information and who is looking for training from Google. They have all the college information and people in all industries that I want to reach. They use AI in the process of doing business. Their automation would take care of that. I was impressed by their system.

We will also do an SEO on the website to increase hits and business. This may happen by the end of June 2025. This will increase both our AI Course Sales and AI Consulting Business. We signed up several AI development companies to handle our consulting division.

## Cancer Research Summary

I'm developing a groundbreaking AI-powered software integrated with augmented reality (AR) glasses to transform cancer detection and surgical procedures. This innovative technology enables real-time identification of cancerous tissues, assisting surgeons during operations and reducing reliance on external monitors. By overlaying critical imaging data directly into the surgeon's field of view, it enhances precision and efficiency in the operating room.

## AI Developer + Medical Services

Our AI system is designed to analyze various medical imaging modalities, including CT scans, MRIs, and X-rays, to detect multiple cancer types such as breast, lung, prostate, colorectal, pancreatic, skin (including basal cell carcinoma, squamous cell carcinoma, and melanoma), and brain cancers. This aligns with current advancements where AI assists radiologists in detecting anomalies and interpreting imaging data, ultimately improving patient care.

## Financials for AI Online Developer +

### Financial Summary

#### Sales for 2026:

College Purchases	\$ 300,000.00
Corporate Purchases	\$ 10,000,000.00
Individual Purchases	\$ 200,000.00
Consulting Business 2025	\$10,000,000.00
AI Medical Projects	\$20,000,000.00
Total Sales	<b>\$40,500,000.00</b>

Our medical AI projects will be completed by 2026. We expect to license our AI code with the device for finding cancer starting in 2026.

We plan to hire 2 salespeople to sell to Corporations and colleges. Plus, we will save money by purchasing a database Zoominfo

Our competition is the big corporations that are providing courses to our competition selling on their own. Our AI Engineering programs should be our big seller. As well as the Machine Learning Engineering.

## **AI Online Developer + & AI Developer + Consulting Firm**
