Use **FIRESTOPPER**. Firefighting Foaming Catalysts

### Introducing the **FireStopper**® Technology: FFC (Firefighting Foaming Catalyst)

- Unlike Class A Foams and Slurries, FFC's Are Classified All Fire Class and Sub Class Effective (ABCDK, Polar Fuels, Composites, Exotic Flammables And All Flammable Metals, [Including Nuclear Industry Related Flammables](#))
  - FFC's Do Not Have [PFOA or PFOS](#). [Click Here for Safety Data Sheet](#)
- **FireStopper**® Concentrates and Premix Are Fully Certified Non-toxic, Non-irritant, Environmentally Safe and Non-aggressive Under the Most Demanding Environmental Testing Protocols by The Most Prestigious Third-party Testing Laboratories (Available Upon Request)
  - No Decontamination Necessary
  - Runoff Does Not Require Cleanup. Muni Water Reclamation Ready
- Against All Other AFFF, The Speed of Knockdown and Extinguishment Is Far Superior According to Third-party Certifications (Results Available Upon Demand and We Suggest Head to Head Demonstration)
  - No Flashback on All Fire Class
  - Medium Term Retardant Properties for Structure Protection
  - The FFC Technology [Transmute](#) (Changes) Flammables Into Non-flammables (Please Visit Our Website: <https://www.firestopperus.com>)
- **FireStopper**® Real World Use Drastically Reduce Smoke and Toxic Byproducts of Fire Events Thus Reducing Fire Personnel Exposure to Cancer Producing Fire Byproducts
- Unparalleled Temperature Reduction: **>1800°f to <135°f in <40-sec**
- [Most Economical Over All Others by Use, Application and Reliability](#)
- Freeze Resistant: -2.2°f Without Employing Hazardous Freeze Protection Additives

### **FireStopper** AB 40002 FFC Recommended Application/Use

- [Wildland Fire; Structure Protection](#), Post Fire Cleanup, [Pre-spray High Risk Areas In Advance Of Fire](#)
- Hot Spot Air Drop: 6%
- Structure Protection: Mix between 10%-30% for pre-treatment of exterior structure surface protection. (End user should determine best application choice.)
- Post Fire Cleanup: 3% (For Faster Results Use 6%)
- [Click Here for Product Sheet](#)
