5 Tips & Tricks

TO DECORATE YOUR BEDROOM

Learn the main rules to remember when decorating your bedroom

Pile Up the Pillows

There are no rules on how many pillows you can put on your bed! Never be afraid to mix patterns, either. The more, the merrier!

Rearrange the Furniture

This tip can help make a big difference. It will make your room feel completely new! Put your bed at a different angle or move it under the window, change the position of your dressing table, play around with the placement of your rug.

Create an Eye-Catching Spot

A focal point can be at the head or foot of the bed. Create it by using eye-catching pillows or a colorful blanket.

Mix and Match

Even if two pieces of furniture don't appear to match, you can make them work! Don't be afraid to play around with unlikely pairings.

Have a Quiet Space

Choose a corner where you can place a chair or footstool. It will not only create a comfortable space but will also help break up a large area.
